

# 15 CANDIDATES FREE DELEGATES AND ASK VOTE OF CONVENTION TO MAKE M'ADOO FOLLOW SUIT

## Life of Calvin Coolidge, Jr., Hangs by Thread

### SON OF PRESIDENT HAD SLIGHT RALLY AFTER MIDNIGHT

Transfusion of Blood Resorted to During Night To Save Life of Youth, According to Report.

### PRESIDENT AND WIFE CONSTANTLY AT SIDE

Patient's Inability To Take Nourishment Leaves Youth's Waning Strength Only Resource.

Washington, July 6.—Calvin Coolidge, Jr., son of the president, was described tonight as "very low" after a consultation of physicians.

It was admitted the 16-year-old boy was losing ground in his battle against septic poison, which has ravaged his body for four days.

The disease had reached such a stage tonight that medical aid almost was despaired of.

An unfavorable factor is the patient's inability to take nourishment. Although his vital organs are functioning, this condition, with the very high fever of the past several days, has greatly weakened him. What sleep he had today was fitful.

President and Mrs. Coolidge and their elder son, John, were at the bedside, while close at hand were Frank Stearns, close friend of the president, and E. T. Clark, personal secretary to the president. It was the intention of all of them to remain throughout the night.

During the day and night several consultations were held by the physicians at Walter Reed army hospital where the boy was taken yesterday and operated upon in an effort to arrest the course of the infection. Late today it was admitted that he could get no worse, and the word coming from the evening consultation was interpreted as even more grave.

The disease, carrying with it a high fever, has run unchecked for four days and the boy's constitution was about exhausted tonight.

General Condition Slightly Worse.

The patient recovered from the effects of anesthetics administered last night when he submitted to an operation in an effort to check the disease, but his general condition, at first somewhat better, then became slightly worse. Encouragement grew, however, when during the day he began to rest a little easier, but late in the day a less optimistic view was taken.

President and Mrs. Coolidge, who went to the hospital yesterday, remained there today, except for a short time when they returned to the white house. They were back at the bedside at once, however, and arranged to remain there throughout the night.

Infection Comes From Blister.

The operation performed last night was on the left leg below the knee. The infection from a blister formed during a tennis match last Monday—began on the right foot. The efforts of the surgeons were pronounced as having accomplished all that could be.

### ROGERS HAS PLAN TO END DEADLOCK IN CONVENTION

New York, July 6.—Will Rogers, the comedian, speaking at the McAdoo rally Sunday night, advanced a plan for ending the convention deadlock.

"If you really want me to end this deadlock," Rogers said, "I'll bring our girls down from the Folies in their stage clothes and send them out on the floor to work on the delegates. I'll guarantee to break the deadlock in one ballot."

### MISSING FAIRBURN BANKER RETURNS

H. G. Cook, Charged With Kidnaping Fairburn Girl, Arrives Home Sunday; Girl Is Still Absent.

Fairburn, Ga., July 6.—(Special.) H. G. Cook, prominent Fairburn banker and one of the wealthiest landowners of this section, who has been hunted by police in all parts of the country for the past three weeks on a charge of kidnaping pretty 17-year-old Agnes Purmont, a daughter of one of his tenants, returned home this morning. Late Sunday night, it could not be learned whether Miss Purmont returned with him, as he stayed in the seclusion of his home, refusing to speak with anyone other than members of his immediate family.

Cook had not been arrested late Sunday, but it is expected that he will surrender to the sheriff, who has been absent from town Sunday, on Monday morning. A warrant, sworn out by the young woman's father, was issued by Judge J. Wilson Parker soon after Cook's disappearance June 17.

At the time of his disappearance, it was claimed that Cook took \$15,000 in cash with him. He met the Purmont girl in Pyrene, a way station in Campbell county, where they boarded a west-bound train, it was learned.

Although Cook refused to be interviewed, it is understood that, following a telegram sent by him from Birmingham Saturday night, members of his family arranged to meet him in Atlanta Sunday morning, and that the trip from Atlanta to Fairburn was made by automobile.

Every effort Sunday to learn where Cook had been since leaving Fairburn and Miss Purmont's present whereabouts, failed. Cook, with head hanging, and glancing to neither right nor left, walked through the main street of Fairburn about noon Sunday, but refused to talk to anyone, and has remained in his house since.

The only clues showing the route alleged to have been taken by Cook and the girl were two cards received by T. W. Camp, and mailed from Denver, Col., both of which were signed by Cook's name. Cook's estate, valued at more than a quarter of a million dollars, was placed in the hands of J. H. McClure, of Fairburn, soon after the banker's disappearance. Cook owned much valuable property in this section, and was a director of the Bank of Campbell County, which failed a short time ago.

### AVIATORS CRASH INTO WIRE FENCE

Richmond, Va., July 6.—Lieutenant Owen Spruance and Cadet Bemis, flying between Washington and Langley field, badly damaged their plane yesterday, when they crashed into a wire fence, while attempting a landing during a dense fog in a field on the nine-mile road near here. The two aviators, who are attached to the army air service, are touring all army air stations in the east.

### MYSTERIOUS FIRE THREATENS BLOCK IN HEART OF CITY

\$65,000 Damage Is Done to Building Located at 14 Marietta Street Sunday Night.

### CUSTOMERS IN PANIC AS RESTAURANT BURNS

Volleys of Pistol Shots Preceded Blaze, Police Are Told; Officers Blame Firecrackers.

Flames of mysterious origin early Sunday night did \$65,000 damage to the building located at 14 Marietta street, just three business houses out of business, ate through the walls of two adjacent structures, and for a time threatened downtown property worth millions.

Police and detectives started work immediately on reports that the fire was caused by incendiaries, following reports that pistol shots had been heard thirty minutes before flames were noticed.

Customers in Panic.

The fire, which is believed to have started on the third floor of the building, in the former headquarters of the American Legion post No. 1, soon ate its way through the floor into the dining hall of the restaurant on the second floor. Several customers narrowly escaped, sacrificing coats, hats and other possessions in the rush for safety.

At the same time flames broke through the roof on the third floor, throwing sparks over the Arcade building on Peachtree and showering the Kimball house and surrounding buildings with burning embers.

The first floor, occupied by the Griff-Reynolds company, men's furnishings, and Hambright-Tolson company, also haberdashers, was badly damaged. None of the three firms, occupying the destroyed building, will be able to reopen pending repairs, firemen said.

Chief Cody, of the fire department, assumed personal control in battling the flames and after several hours of hard work had the situation under control.

Fire Puzzles Police.

The fire, which was reported at 8:20 o'clock, puzzled the detective department, whose aid M. Bengal, owner of the restaurant, enlisted, after he recalled having heard several pistol shots a few minutes before the blaze started.

He said that he also had heard sounds resembling pistol shots earlier in the afternoon. Investigation at that time was postponed, he stated, until after the rush of business, but when they were repeated at 8 o'clock he became alarmed and was about to investigate when the flames burst through his establishment.

Police and detectives discounted the theory that the noise which seemed to come from the rooms on the vacated story was the result of pistol shots. They advanced the explanation that the noise was from the cracking timber from the smoldering blaze or that small boys were shooting firecrackers there. However, they are investigating the mystery along the lines suggested by Bengal.

Conservative estimates put the total loss at \$65,000.

### HOLLIS MORGAN BADLY WOUNDED

College Park Man Taken to Grady; Wound Believed To Have Been Self-Inflicted.

Hollis Morgan, 31, of College Park, lies at the point of death in Grady hospital with a pistol ball wound in the abdomen, said to have been self-inflicted.

Morgan was so weak upon his arrival at the hospital that he was unable to discuss the shooting. However, he is quoted as having told nurses that he had been despondent for more than a week.

Morgan was at home at the time he was wounded. He suffered severely from loss of blood before he reached the hospital.

Before coming to Atlanta he was connected with the Vienna News, at Vienna, Ga.

Fighting for Life

CALVIN COOLIDGE, JR.

### 1 DEAD, 4 INJURED IN AUTO ACCIDENT

David Welch, of Newnan, Killed When Speeding Car Crashes Through Bridge Near Luthersville

Newnan, Ga., July 6.—(Special.) David Welch, 25, was killed instantly this morning when an automobile in which he was riding turned over near Luthersville. Welch and four young men friends were returning to Newnan from Warm Springs, where they had attended a dance. Charlie Cox, owner and driver of the car, suffered painful bruises about the face, but his condition is not considered serious. Charlie Pitman was thrown from the car. His ankle was broken and physicians fear that his foot will have to be amputated. Julian Carpenter also was thrown from the car and received severe cuts about the body. Frank Gearrad was the only occupant of the car to escape injury.

Cox was driving at a rapid speed around a curve and ran off of a wooden bridge. It is supposed that a plank from the broken bridge struck Welch as the car went over. All occupants were pinned beneath the car except Carpenter and Pitman, but Pitman was so badly hurt that he could not assist Carpenter in lifting the car from the others. Carpenter was forced to walk two miles before assistance could be obtained.

Welch was one of Newnan's most prominent young men, and held a responsible position with the Johnson Hardware company.

He is survived by his parents, Mr. and Mrs. Walter Welch, and two brothers, Lowry and Tharan Welch, all of Newnan.

Funeral arrangements have not been announced.

### ENGLISH AVIATOR REACHES KUSHIMOTO

Kushimoto, Japan, July 6.—(By the Associated Press.)—A. Stuart McLaren, the British aviator on a world flight around the world, arrived here at 5:08 o'clock this afternoon. He had received a supply of gasoline from a Japan naval airplane which went to his assistance when he was forced to land at Susimi, 25 miles from here, because his fuel supply was exhausted.

### EARTHQUAKE SHOCK IS FELT AT CAPITAL

Washington, July 6.—An earthquake shock of moderate intensity, lasting from 9:25 to 10:15 a.m., with maximum intensity from 9:36 to 9:42 o'clock and occurring about 2,300 miles south of Washington, was reported today by Father Tondorf, of the Georgetown university observatory.

### REV. JOHN W. HAM QUILTS PASTORATE

Pastor of Baptist Tabernacle Will Leave Atlanta To Engage in Evangelistic Work.

Rev. John W. Ham, pastor of the Baptist tabernacle and a leader in the Baptist denomination in the south, Sunday tendered his resignation to his congregation, to become effective September 1, after which he intends to enter the evangelical field.

Mr. Ham has been pastor of the tabernacle since 1917, and the date of his resignation will be the anniversary of the beginning of his pastorate.

During his service in Atlanta he has led in a movement which lifted a debt of more than \$100,000, has made many improvements, and has re-established the Bible conferences which had been discontinued since 1913.

After Mr. Ham had read his resignation, it was moved and carried by an overwhelming vote that action on the resignation be deferred until next Sunday morning in order to afford the congregation opportunity to give careful consideration before voting on the resignation.

Mr. Ham's Resignation.

Mr. Ham's resignation follows: Seven years ago, we were brought by Divine guidance into bonds as pastor and people. As we look back across this period we are made humble as we recount a few of the outstanding blessings and accomplishments; we marvel today at the grace.

### Fire Takes Lives Of Three Little Girls in Chicago

All of Sunday Victims Were Six Years Old or Less.

Chicago, July 6.—Playing with fire cost the lives of three little girls Sunday in Chicago and vicinity.

Lorraine London, 6 years old, started a bonfire. Then she called some playmates and led a dance around the flames. Her dress took fire. The other children screamed for help and pedestrians put out the flames and sent Lorraine to a hospital, where she died.

Patricia McClellan, 6 years old, was watching her little brother, Allen, while her mother was out. She started matches and started a fire in her house. A neighbor, Mrs. Susan Frost, intercepted the girl as she ran downstairs with her clothing on fire. Patricia also died in a hospital.

Genevieve Stutor, 5 years old, started a fire in a heap of grass near her home at Cicero. Her clothing caught fire and she died a few hours later in a hospital.

### FACTIONAL FIGHT IS DRIVING PARTY TO POLITICAL DEATH

Majority of Delegates Believe Only Salvation Lies in Leader Not Involved in Religious Controversy.

### PARTY DEFEAT SEEN WITHOUT COMPROMISE

Nomination of McAdoo or Smith Would Mean Great Sectional Losses. Democratic Leaders Declare.

BY JAMES A. HOLLOMAN.

New York, July 6.—(Special.)—With the democratic party of the nation admittedly in the hands of trustees to save it from bankruptcy, a condition produced by the conflicting ambitions of two men, neither of whom own it, the third week of the national convention will open tomorrow morning with half of the delegates seats empty, without spirit or virility, and with a situation of strife prevailing that is little less than a national disgrace.

Over the week-end tens of thousands of telegrams have been poured in upon the McAdoo delegates, the Ku Klux Klan being particularly active in this barrage in order to hold the Californian's veto line unbroken. Nearly all of these telegrams are of the same wording, which fact discloses the dictation of some directing hand. Officials of the Klan gathered in New York are bringing special pressure upon the southern delegates that are voting in the broad anti-McAdoo field and personal clashes have occurred in many instances as a result.

The pressure of the Anti-Saloon league became more pronounced during the week-end and many women leaders in that organization were summoned to New York. They began to arrive Sunday.

Feeling on Increase.

The Smith contingent is mad almost to a point of desperation on account of the tactics of the McAdoo contingent and especially in view of the McAdoo refusal to invite him, the governor of New York, to speak after Bryan had made his spectacular appeal for McAdoo, and in the face of the fact that Smith's intentions to publicly announce his own retirement if McAdoo would retire, thereby eliminating the religious and racial issue from the party and the convention.

The belief that the Klan and anti-Klan row will be kept up within the

### Nine Standard, Copyrighted Jokes Coined in Convention

BY RODNEY F. DUTCHER.

New York, July 6.—In case you haven't heard some of the standard, sapient cracks concerning the democratic convention, the standardized list of humorous sayings and funny jokes will be given hereafter.

The press section of the hall is divided into two parts—the press section and the rest of it. The rest of it is partitioned off by chicken wire and is reserved for the humorists. The chicken wire screen was placed there on the advice of the famous Cherry sisters, who invented this device thirty years ago at Miner's theater on the Bowery to fend off senile cauliflowerers, moribund cats and other sentimental tributes intended to express such sentiments as "rotten," "terrible" and "awful."

In order to be adopted as a standard joke of the convention, a jest must be published at least nine times under the signature of nine different authors and must be adopted by the American federation of convention humorists. These jests bear the official approval of the union humorists and one may laugh at them with impunity, whereas anyone who shall titter, laugh, snicker, snort, chuckle, giggle, guffaw, haw-haw, tee-hee or otherwise evince amusement at any other quip crack, joke, smart-saying or sunny remark concerning the convention will be declared unfair to organized labor.

The standard list follows:

An old gentleman was discovered today who says he remembers the day the convention began.

C. H. Wilson, of Soda Springs, Utah, the man with the longest beard in the convention, is the only one who has had any sleep. He carries his own Ostermoor with him.

Several delegations have made an overnight shift. They shifted from the Waldorf to a 15-cent lodging house on the Bowery.

Some delegations have ridden more band-wagons than Polly of the Circus.

William Jennings Bryan says he probably will not attend the next convention. The same pledge has been taken by 1,097 delegates.

Mr. Bryan became a great-grandfather during the convention. It is hoped the convention will end before his great-grandson does likewise.

Ten Broadway shows have flopped since the convention began. There is no hope of this one flopping.

The senior class of the convention will graduate in a few weeks. Final exams require the seniors to reel off the vote by states from memory, beginning with Alabama "Twenty-four votes for Oscar W. Underwood."

Some of the students can recite the entire roll call with the accurate vote of each delegation as glibly as a Greek waiter reels off apple, peach, coconut, gooseberry and rhubarb pie.

Senator Saulsbury, of Delaware, has received 463 votes. The trouble with Senator Saulsbury is, however, that he never got more than seven on one ballot.

The humorists' union guarantees these jokes and recommends them for high conversation in the home, at lodge meetings, pinchies parties or klondikums.

### CALIFORNIAN TIES THREE PROPOSALS TO ANY AGREEMENT

Demands Abrogation of Unit, Two-Thirds Rules, Drop Favorite Sons, Vote Full Strength.

### CHAIRMAN HULL STILL HOPEFUL OF AGREEING

Opinion Prevalent in New York That McAdoo Has Been Put in Hole by Strategy.

New York, July 6.—Having released unconditionally the delegates supporting them, all the candidates for the democratic presidential nomination save William G. McAdoo will ask the national convention tomorrow to compel a similar unconditional release of the McAdoo delegates as well.

Whether the convention can do more than express its sense in the matter is not certain.

At the same time, a qualified counter-proposal, submitted to party leaders by Mr. McAdoo tonight when he was asked to join in the action of his 15 opponents, will be laid before the convention as a substitute. It provides that the release of the delegates shall be accompanied by abrogation of the unit rule and the two-thirds rule; that favorite sons be dropped from the balloting by a process of progressive elimination, and that state delegations be permitted to vote their full strength, even if there are absentees.

Counter Proposals Unacceptable.

A conference of the representatives of all of the candidates late tonight found the McAdoo counter proposal unacceptable, the McAdoo managers alone supporting it. Unable to make further progress toward a solution of the long convention deadlock, the conference then adjourned subject to call and authorized Chairman Hull of the democratic national committee to go before the convention, when it meets tomorrow morning, and submit the two proposals.

The situation pointed to a showdown on the question on the convention floor, with the Smith and favorite son forces standing solidly on one side, and the McAdoo supporters on the other. Convention officials were uncertain whether a simple majority or a two-thirds vote would be required to decide the issue.

The McAdoo counter proposal was drafted at a long conference between the candidate and his managers, and afterward Mr. McAdoo reaffirmed in an address to his delegates supporting him in his determination not to withdraw. His spokesmen said after tonight's disagreement among the candidates' managers, however, that no attempt would be made to prevent the proposal of the 15 candidates from reaching a vote in the convention.

Hull Makes Statement.

The representatives of the candidates had been sitting with Chairman Hull and with Senator Walsh, of Montana, chairman of the convention, under authorization of the convention itself. At the close of the conference Chairman Hull, after referring to the release proposal of the representatives of the fifteen candidates and the counter proposal of Mr. McAdoo, dictated the following statement:

"The sum total of what I have in mind in connection with the proceedings of the conference, in addition to the two statements, is that the fifteen candidates who submitted the

### The Weather SHOWERS.

Washington, July 6.—Forecast: Georgia: Unsettled showery weather Monday and probably Tuesday; gentle southeast winds.

Virginia, North Carolina: Unsettled weather with showers Monday; Tuesday probably fair, slightly warmer; gentle southeast and south winds.

South Carolina, Florida, extreme northwest Florida: Unsettled showery weather Monday and Tuesday; gentle southeast winds.

Alabama, Mississippi: Unsettled weather with scattered showers and thunderstorms Monday and Tuesday; warmer in north portions; gentle variable winds mostly southeast.

Tennessee and Kentucky: Unsettled weather with local showers Monday and probably Tuesday; slightly warmer.

Illinois: Partly cloudy Monday and Tuesday, except some possibility of local thundershowers; warmer.

Missouri: Mostly fair Monday; warmer; Tuesday probably local thundershowers.

Louisiana: Monday and Tuesday generally fair, except showers in southeast portion Monday.

Arkansas: Monday and Tuesday generally fair.

Oklahoma, East and West Texas: Monday and Tuesday partly cloudy.

### Atlanta Goes to Its First Revival

Atlanta has seen hundreds of evangelistic revival meetings since the first in 1847. Yet none of these gatherings has proved more enthusiastic than that 1847 meeting in a warehouse here.

Conducting the meeting were Bishop Andrews, Dr. Means and several other prominent leaders of the time—starting Atlanta on a long road into the wonderful realms of religion.

In this work it is doubtful if any save the ministers of the gospel have been so zealous as The Atlanta Constitution in preaching the daily practice of the sublime philosophy of Jesus Christ. Surely no part of The Constitution's history has proved so important in the development of this paper into the daily guide that it has become for hundreds of thousands of loyal readers.

first proposal submitted it on their independent action, regardless of whether it was accepted or not by the representatives of the other candidates. Their delegates are released. So far as these fifteen candidates are concerned. That is my interpretation of the action of the conference. That is a matter between the candidates and the delegates.

#### Report Proposals to Convention.

"The conference will doubtless report to the convention," the progress it has made thus far, especially as it relates to the action of the representatives of the fifteen candidates. That will be reported to the convention along with the counter proposal of Mr. McAdoo. It is a matter entirely for the convention to determine what action it will take. The candidates have the undoubted right to release their own delegates without any action by the convention. The fifteen candidates who signed the proposal will stand by their action, regardless of what Mr. McAdoo does. I think the two proposals were submitted as a whole and will be treated as a whole.

"The conference has not dissolved. It has simply adjourned for the present, subject to call. The work of the conference thus far will be placed before the convention simply by the submission of the two proposals. The conference was authorized only to consider suggestions for the convention. The McAdoo counter proposal has not been accepted thus far by the other fifteen candidates. The matter can be left between the candidates and their delegates whom they have authority to release.

#### Release Was Unconditional.

"The representatives of the fifteen candidates made it plain that those candidates would abide by the terms of their proposal, even after the McAdoo counter-proposal was received. That was my understanding. The McAdoo counter-proposal was not accepted by the representatives of the other fifteen candidates. I think the general attitude of the representatives of the other candidates was adverse to the McAdoo proposal, treating it as a whole. They did not take it up by paragraphs.

"Whether the conference will meet again will depend upon what progress can be made by group conferences from time to time. I take it that Senator Walsh, the presiding officer of the convention, or myself, will make a report to the convention on what has been done. The convention can take any action which it may see fit on this or any other suggestion that may be made from other sources. I cannot say that there is any plan to submit the proposals in the form of a motion."

#### No Compromise Discussed.

Replying to an inquiry as to whether the conference had discussed a compromise candidate, Chairman Hull stated that those participating had not "considered it our function to discuss any compromise candidate."

"That, he said, would be the last thing they would attempt to do, even should they be delegated by the convention to attempt it."

"The conference exercised its good offices in connection with each suggestion that was made," Chairman Hull continued. "There were a number of minor suggestions. Some were discussed and acted on, and others were rejected. I am not at liberty at this time to state what were."

"Whether there will be a meeting of the conference before the meeting of the convention tomorrow depends entirely upon developments in the meantime which cannot now be anticipated. It can be stated, however, that there will be conferences of groups looking to a solution."

Chairman Hull declined to state whether, under the rules of the convention, a two-thirds vote would be requested for the adoption of a compromise proposition. He stated it was rather a technical matter which he would prefer to have Chairman Walsh determine when raised. He added, however, that he did not know

whether there was any material difference of opinion on the subject.

Mr. McAdoo's proposal, presented in the form of a letter addressed jointly to Chairman Hull, of the democratic national committee, and Senator Walsh, of Montana, chairman of the convention, was as follows:

#### Text of McAdoo's Letter.

"Gentlemen: The agreement just submitted to me, signed by the various candidates before the convention, for releasing their delegates from any pledge, instruction or obligation of any nature whatsoever, insofar as their candidacy for the democratic nomination for president is concerned, does not, in my opinion, offer a solution of the unfortunate deadlock in the convention. We must, therefore, adopt a practical plan which will end the deadlock, no matter what effect it may have on any individual candidate."

"I therefore propose that, in addition to releasing all delegates as proposed in agreement submitted, the unit rule in this convention be abrogated; that the majority rule be substituted for the two-thirds rule in nominating a candidate for president and vice president; that each of the delegates present from each state shall be entitled to cast his pro-rata vote of all the delegates from such states as may have delegates absent from the convention; that, after the next ballot and after each succeeding ballot of the candidates formerly placed before this convention, the one receiving the lowest number of votes shall be dropped from the roll of candidates until a nomination is made."

"I submit herewith a form of the proposed agreement which I am willing to join all the other candidates in signing."

"Respectfully yours,  
(Signed) WILLIAM G. McADOO."

#### Text of Proposed Agreement.

"We, the undersigned, agree that the unit rule in this convention shall be abrogated and that only a majority vote shall be required to nominate candidates for president and vice president."

"The undersigned further agree that after the next ballot and after each succeeding ballot among the candidates formerly placed before this convention, the one receiving the lowest number of votes shall be dropped until a nomination is made."

"The undersigned do further agree that each of the delegates present from each state shall be entitled to cast his pro-rata vote of the delegates from such states as are absent from the convention."

"The undersigned do hereby release each and every delegate from any pledge, instruction or obligation of any nature whatsoever insofar as their candidacy for the democratic nomination for president is concerned, completely as if their names had been withdrawn from this convention."

"This statement has been submitted to each candidate whose name has been placed in nomination and has been accepted by those whose names are subscribed hereto either in person or by duly authorized representatives."

Fifteen of the sixteen candidates for the presidential nomination previously had approved a statement declaring each willingly released all delegates committed to him "as completely as if his name had been withdrawn from the convention."

The fifteen approving the declaration, which was originally put forward at a meeting of representatives of minority candidates, included Governor Alfred E. Smith, of New York

who, with Mr. McAdoo, stands as a leader among the candidates before the convention.

The representatives of the fourteen "minority" candidates first affixed the signatures of their principals. Then Governor Smith declared that he placed his signature upon the document which had been drafted in the form of a resolution for presentation to the convention. It reads as follows:

#### Text of Resolution.

"Resolved: That the time has arrived when, in the opinion of this democratic convention, all delegates should be and are hereby released from any pledges or instructions of any kind whatsoever, touching their candidacy for the nomination for president."

"Statement: The undersigned do hereby release all and every delegate from any pledge, instruction or obligation of any nature whatsoever, insofar as his candidacy for the democratic nomination for president is concerned, completely as if his name had been withdrawn from the convention."

The original resolution presented to the conference of "minority" candidates was drafted by Howard Bruce, representing Governor Albert C. Ritchie, of Maryland. Bruce, the drafting committee created the resolution which was signed by the representatives of the candidates.

McAdoo Leaders Ask Release. The McAdoo leadership asked for a recess after the conference had recessed previously for an hour, declaring they needed time to confer not only with their principal, but with the delegates who have been supporting Mr. McAdoo.

When the recess was taken Cordell Hull, chairman of the national committee, and authorized spokesmen of the conference, confined his statement practically to the fact that adjournment had been taken.

"The matters pending at the time of adjournment are, of course, under the rules of the conference, and I cannot disclose them," he said. "I hope to be able to do so after the meeting."

The chairman and the committee today were showing the same good temper and was earnestly considering suggestions relative to steps and policies "which might help in settling the problem of the convention."

"The conference has nothing to do with the individual candidates or what they may do as to their candidacies," he added, "but is striving by means of the unit rule to bring about the reaching of a conclusion."

The Smith leaders, in considering the proposal to release the delegates, expressed the view after the recess was taken that it offered a real opportunity to the convention to express its convictions and that as a result of the proposal a nomination would be brought nearer to realization.

McAdoo Put at Disadvantage. Observers of the move to obtain an agreement to release all delegates were of the general opinion that it put McAdoo at a disadvantage, to say the least of whatever he stood on it. It was asserted that if McAdoo accepted, it would doubtless mean the loss of some delegates who have been voting for him, as even the most optimistic McAdoo supporter admits.

Smith supporters openly boasted that their candidate could take at least 130 votes away from McAdoo's people, and that the number would be this large, and countered with the declaration that even though they lost some of their voting strength at the week, they would gain new recruits from the favorite son states.

Opponents of McAdoo also declared that if he refused to go along with the minority proposal it would injure him with delegates who are on the fence. Tired and broke, they are certain to take a refusal by McAdoo as a lack of good sportsmanship, his opposition declared, and vote against him.

The Smith followers were in high glee over the situation because they insisted that the government of the release of delegates would not cause many votes to shift away from him.

Anti-McAdoo Elements Closer. If any one definite trend characterized the day's activities, it was toward a closer union of the anti-McAdoo elements of the convention, not in the interest of any one candidate, but to work out their theory that if McAdoo could be eliminated the convention would be able to find a nominee. The question of selecting a compromise candidate appeared to be as much an enigma as ever.

Whether the conference of officials and campaign managers would have a report ready to lay before the convention when it reconvenes tomorrow morning also remained uncertain. Some suggested that a further delay might be asked for, and some privately expressed the view that a disagreement might have to be reported, leaving the delegates to seek some new recourse to free them from the grip of their 77-ballot deadlock.

The meeting of the various managers, which preceded the reassembling tonight of the full group of conferees, acted unanimously in proposing the release of delegates as a first step toward a solution. A resolution was drafted under which it would be declared the sense of the convention that all instructions to vote for a particular candidate be disregarded, without, however, changing the effect of those state conventions which have directed their delegations to vote as a unit.

Over Dozen in Conference. Those who sponsored the resolution and later laid it before the full conference held it would go before the convention with the signature of some one authorized to speak for the candidates, including the two leaders. Should it fail of unanimous acceptance beforehand, however, the proposal would be a demand a roll-call on its adoption so that every delegation would have to go on record.

Sitting in the favorite son conference were spokesmen for 15 candidates, presided over by Senator Swanwick, of Virginia, who spoke for the delegates. The others representing were Senator Underwood, of Alabama; Senator Robinson, of Arkansas; former Senator Saulsbury, of Delaware; David E. Houston, Senator Ralston, of Indiana; Governor Davis of Kansas; Governor Ritchie, of Maryland; Senator Ferris, of Michigan; James L. Cox, Governor Bryan of Nebraska; Governor Bryan, of New Hampshire; Governor Silzer, of New Jersey, and John W. Davis.

The combined strength of these 14 candidates on the 77th ballot—the last taken before the over-Sunday adjournment—was 209 out of the 1,088. But it was figure did not tell the whole story of the importance of the favorite son groups in the solution of the problem which has held the convention powerless for a week.

Attracted Stray Vote. On earlier ballots, the favorite son candidates have momentarily attracted one or another of the state delegations away from the state delegations at times when their help was needed badly to hear up a strategic drive, and the Smith and McAdoo managers declare the same situation is bound to continue as long as the managers of the favorite sons remain before the convention.

It is further argued that, with more than a third of the convention strength tied to the banner of Governor Smith, and nearly half the delegates voting consistently for McAdoo, the favorite son strength must be broken into by either side which hopes to come even within

striking distance of the two-thirds necessary to nominate.

Arguing that a nomination would result from the unlocking of the favorite son repositories of strength, David Ladd, Rockefeller, declared tonight that in such an event his candidate would be able at once to increase his total to more than 600 statesmen, a number which would sweep the Smith opposition off its feet and load down the McAdoo bandwagon before many ballots with the 732 votes necessary to a clinch.

#### McAdoo and Aides Busy.

Much of today was spent by Mr. McAdoo in conferences with Mr. Rockefeller and his other advisers, mapping out a plan to continue the fight and drafting suggestions for a possible revision of convention procedure, to be laid later before the conference of party leaders and campaign managers. Despite the failure of all attempts at a session to adopt a plan for elimination of the low man on each ballot, and for other changes in the convention rules, it was apparent that the McAdoo supporters still hoped to bring forward a plan that would expedite the work of the convention and at the same time be of such a character that the opposition would accept without a fight.

The rally of McAdoo delegates tonight was said to have been called by McAdoo managers in the various state delegations, and the candidate's headquarters disavowed any connection with the plan. The purpose was to reassure Mr. McAdoo that he would continue the fight. Admission of delegates for any resuming of the balloting that might be necessary. A statement was issued, declaring Governor Smith the only candidate who could win in the election this fall.

Proposal Is Rejected. One proposal which came before the conference of party leaders and candidates' managers last night was that the lesser candidates withdraw from the contest, and an agreement that McAdoo and Smith should retire if either had the needed two-thirds at the end of the five ballot run-off. The proposal came from the ranks of the natural conservatives, to have its general approval, but it failed of acceptance from the McAdoo and Smith managers and was dropped.

At times the discussions proceeded with great bitterness and there were many personal tilts between party leaders on opposite sides of the fence. Mr. Rockefeller repeatedly came under fire, but he refused to all his critics by arguing that it was ridiculous to suppose a candidate with almost a majority of the total convention votes should withdraw in favor of some favorite son whose strength is comparatively negligible.

One of the central figures in the first meeting of the conferees last night was William Jennings Bryan, who became the storm center of several disputes and pointedly gave his colleagues his opinions on several subjects. But he did not attend any of today's conference, ending with his religious views did not permit him to take part in political discussions on Sunday.

One of the bitterest rows in the preliminary stages of the conference was precipitated by a proposal that the unit rule be abrogated so that all the delegates could vote their personal convictions. The suggestion was supported by the Smith forces, and opposed by William Jennings Bryan, who attended as the representative of his brother, Governor Bryan.

Repeated clashes occurred also between Mr. Bryan and Senator Caraway, of Arkansas, representing the candidacy of Senator Robinson. The activities of the "Commoner" in this and previous conventions became the subject of frequent jokes tossed across the conference table and he insisted on replying to all of them fully.

Brennan Smooths Rough Spots. George Brennan, of Illinois, under, selected by Governor Smith as his chief representative in the conference, several times smoothed over difficult situations and restored the good nature of the weary and discouraged conferees. Another stabilizing force was Thomas Taggart, of Indiana, author of the motion under which the conference assembled. Without direct obligation to either the Smith or McAdoo factions, he occupied a position enabling him at critical stages of the argument to restore the conference to an even keel.

It was declared by the leaders that last night's session, as well as the earlier stages of the debate, tonight, was so completely devoted to discussing questions of procedure and the possibility of withdrawals that the problem of selecting a compromise candidate had not been approached. There still was much talk outside the conference of Senator Robinson, Senator Ralston, John W. Davis and Senator Glass, but there appeared to be no substantial move toward any one of them.

Various combinations for presiding and vice president were under discussion in scattered groups of delegates. Some of the volunteer ticket makers were offering Robinson and Glass, Ralston and Glass, Davis and Davis, and a host of other combinations. Senator Copeland, of New York; Mayor Dever, of Chicago; Governor Ritchie, of Maryland, and Homer S. Cummings, of Connecticut, were among those mentioned as possible running mates for a compromise presidential candidate, and many also were urging Senator Walsh, of Montana, for the vice presidency, although his friends said he did not want it.

Taggart in Role of Leader. The various conferences and their recesses were anything but thrilling. It was a weary day, and neither the conferees nor the hundred or so persons who waited for the completion of the conferences outside Chairman Hull's headquarters seemed to get much enthusiasm from the happenings.

The initial meeting got under way around 1 o'clock in the afternoon, with Thompson, of Indiana, presiding. A leading role. He took the floor and declared bluntly that the delegates were going broke, and that if something else was done relief to the situation "chaos will reign at the convention. As he talked Taggart became more enthusiastic, and as he urged the need for all favorite son delegates to stand aside and let the voice of the people be heard in the hall through closed doors.

A solution of the kind advanced, desultory discussions for a few minutes and then the proposal was adopted.

Fight to Change Rules. There was a long discussion in the conferees today as well as last night over proposals that both the two-thirds rule and the unit rule be done away with to expedite a nomination. The McAdoo forces fought every suggestion of the kind advanced. Some who attended the conference said that the general opinion appeared to be that neither rule could be abrogated as long as abrogation required a two-thirds vote. A way was sought to change the rules through a majority vote of the convention, and the proposition was made that the resolutions be adopted by a simple majority vote.

"I have left my case entirely in their hands," he said. "They are free to do entirely as they like. I have given them a blank check and they can fill it in."

## TWO MEN ARE JAILED FOLLOWING BATTLE

Following an altercation in a downtown hotel early Sunday night, Mr. Scovry, 28, and L. N. Seelenfreund, 30, are both lodged in police station on state charges. Scovry is charged with assault and battery and Seelenfreund is charged with carrying a concealed weapon.

Few details of the fray could be learned from the participants. A special officer of the hotel made the arrests. Scovry declared that he is a merchant and Seelenfreund said that he is a salesman.

## SOCIALIST CHIEFS BACK LA FOLLETTE

Cleveland, July 6.—(By the Associated Press).—The attitude to be taken by the socialist party of America toward the presidential candidacy of Senator Robert M. La Follette and the relations of this party to the conference for progressive political action came sharply to the front at the start of the party's national convention.

A committee, consisting of 15 of the leading socialists of the party, was appointed and instructed to report by 9 o'clock tomorrow morning in order that the question could be made a special order of business and cleared before the other activities of the convention are taken up. Upon the decision of this question will depend whether the socialists will have a national ticket of their own in the field for the November election.

La Follette Indorsed. The committee tonight decided by a vote of 13 to 2 to recommend to the convention that it indorse the candidacy of La Follette. Close cooperation with the progressive conference in the national campaign also was recommended.

The action of the convention on this problem overshadowed the other doings of the opening session. Mayor Daniel Hoan, of Milwaukee, who was elected chairman, had hardly time to wield the gavel before a motion was made by Cameron H. King, California, that a committee of nine be appointed to formulate a proposal on the relations between the party and the conference. This committee afterward was increased to 15, and following the nomination of 23 delegates, these were elected:

Congressman Victor Berger, Wisconsin; Morris Hillquit, New York; Judge Jacob Panken, New York; Cameron H. King, California; Joseph W. Sharts, Ohio; G. A. Hoehn, Missouri; Lena M. Lewis, California; Emma Henry, Indiana; Joseph E. Cohen, Pennsylvania; G. E. Duncan, Wisconsin; James O'Neill, New York; George E. Roeber, Jr., Massachusetts; John Collins, Illinois; George H. Goebel, New Jersey; W. R. Snow, Illinois.

The speed with which the convention started work was emphasized by the absence of any keynote speech or other traditional national convention ceremony. Mrs. Bertha Hale White, executive secretary of the party, rapped for order and called the roll of delegates. The convention organized with 210 accredited delegates from 29 states and elected Mayor Hoan as chairman and Leo Harkin, New Jersey, as secretary. Committees on resolutions, organization, finance and party constitution were chosen and their reports will come before the convention after the committee of 15 reports.

Opposition Expected. Both Congressman Berger and Morris Hillquit, who were the socialist party representatives in the conference for progressive political action, expressed confidence that the convention would support the action of the conferees, but both admitted they expected rather keen opposition from those who will insist that the socialist party nominate its own candidates for president and vice president.

The buzz of talk was an audible undertone to all the proceedings, swelling at times into an overtone that caused Chairman Hoan to rap for order. He sent for a "sledge hammer" to use as a symbol of the pocket knife which was his weapon at the start, and was given a heavy carpenter's implement, the resounding whacks of which stilled the voices.

"We can work faster if the delegates will do their visiting this afternoon," he said.

Later when the strength of this appeal wore off and conversation became dominant for the third time, he said:

"If you prefer talk to business, the chair will entertain a motion to adjourn."

That threat was efficacious. (Continued.)

There was a busy day, and neither the conferees nor the hundred or so persons who waited for the completion of the conferences outside Chairman Hull's headquarters seemed to get much enthusiasm from the happenings.

The initial meeting got under way around 1 o'clock in the afternoon, with Thompson, of Indiana, presiding. A leading role. He took the floor and declared bluntly that the delegates were going broke, and that if something else was done relief to the situation "chaos will reign at the convention. As he talked Taggart became more enthusiastic, and as he urged the need for all favorite son delegates to stand aside and let the voice of the people be heard in the hall through closed doors.

A solution of the kind advanced, desultory discussions for a few minutes and then the proposal was adopted.

Fight to Change Rules. There was a long discussion in the conferees today as well as last night over proposals that both the two-thirds rule and the unit rule be done away with to expedite a nomination. The McAdoo forces fought every suggestion of the kind advanced. Some who attended the conference said that the general opinion appeared to be that neither rule could be abrogated as long as abrogation required a two-thirds vote. A way was sought to change the rules through a majority vote of the convention, and the proposition was made that the resolutions be adopted by a simple majority vote.

"I have left my case entirely in their hands," he said. "They are free to do entirely as they like. I have given them a blank check and they can fill it in."

SMITH GOES TO BEACH; LEAVES FIGHT TO MANAGERS. New York, July 6.—Governor Alfred E. Smith, of New York, returned from a beach today while the managers of his and other candidates for the democratic presidential nomination were in conference.

He declared he had given no instructions to his representatives.

"I have left my case entirely in their hands," he said. "They are free to do entirely as they like. I have given them a blank check and they can fill it in."

NO REASON FOR EXCITEMENT. "The populace should not be excited. The nation will depend on the patriotic spirit and national zeal of the authorities, civil and other, as well as the loyalty of the nation's forces."

Sao Paulo is the most wealthy and powerful state of the Brazilian union, and maintains its own state army and police force. The city of Sao Paulo, state capital, is an overnight ride from Rio de Janeiro on the Central of Brazil railway. It is a modern city with a population of 760,000.

The public order will be maintained. The nation will depend on the patriotic spirit and national zeal of the authorities, civil and other, as well as the loyalty of the nation's forces."

Some guessing has been done about the causes of the Maytime quest for new abodes—high rentals, the perpetual juggling to keep income even with outgo, and the gypsy urge for change have consideration. Landlords

## IMPORTANT BILLS FACING ASSEMBLY

Meeting again at 11 o'clock this morning after a three-day holiday and week-end recess, the general assembly is faced by an order of business which includes several of the most important bills to be considered at the present session.

Of greatest interest on the house calendar is the bill providing for biennial sessions of the legislature, and its companion measure calling for four-year terms for the governor and statehouse officials, both of which come up for final action this week.

The former passed the senate at its last session, and received strong approval in Governor Walker's message.

Amendment Not Necessary. Recent developments touching the bill providing for January sessions of the legislature seem to indicate that such a measure will not require a constitutional amendment, as had been thought, but can be enacted by a simple legislative act. A constitutional amendment to that end, introduced by Representative Linder, of Jeff Davis, was approved last week by the committee on constitutional amendments by a vote of 15 to 5.

Attention has been called since then to the provision of the state constitution which fixes the day on which the legislature shall meet only "until the day be changed by law," and to the instance when the legislature, in 1902, changed the day of meeting from October to June. Friends of the measure now pending in the house welcome this new turn, and will introduce a substitute bill in the near future to take advantage of it.

Additional Bills. Other bills slated for early consideration include one requiring all vehicles to come to a complete stop before crossing railroad grade crossings, one to place all motor buses in the state under the control of the public service commission, a bill to repeal the cigarette-tax law enacted last year, and the local measure authorizing the city of Atlanta to build viaducts across the railroad tracks at Pryor street and Central avenue.

The last comes before the senate Thursday. On the same day, the senate also will take up the repeal of the tax-equalization law, which the house voted to repeal last year.

Looking before the general assembly is the ever-momentous question of appropriations and of ways and means of meeting them. Although general appropriations were provided for at the last session, special appropriations amounting to more than \$2,000,000 already have been introduced, according to Representative Culpepper, chairman of the appropriations committee. These, if passed, Mr. Culpepper stated, will have to be covered by new taxes, as all present income is already provided for. These measures, however, will not come before the legislature until present business is completed.

## TAXABLE INCOME IS \$21,336,212,530

Washington, July 6.—A total net income of \$21,336,212,530 — an amount equivalent to the gross debt of the nation, was reported subject to federal taxes by citizens of the United States for the calendar year 1922, it was disclosed in statistics of incomes for that year made public by the treasury.

On this income the federal government received \$861,057,308 from the 6,787,481 persons who admitted tax liability. This shows an increase over 1921 of \$141,670,202, or 19.69 per cent in tax paid, of 125,307 in the number of returns filed and of \$1,750,000,000 in total incomes, subject to taxation.

The average net income per return for 1922 was \$3,143.46 a taxpayer, while each theoretically paid \$126.86 toward the upkeep of the government, and their taxes were at the rate of 4.04 per cent of their net incomes.

Based on the 1920 census, 6.2 per cent of the total population paid taxes and by the basis of calculation, each American citizen, whether man, woman or child, had a net income for 1922 of \$194.72, just \$10 higher than in 1921. The per capita tax by the federal government amounted to \$7.86, almost \$1 more than in the previous year in which, however, a different schedule of tax levies was in effect.

**Million Dollar Incomes.**  
The year 1922 produced returns for 67 net income of one million dollars and over, the highest for this class since 1913 when a similar number was reported. There were 21 such incomes reported in 1921. In the class between five hundred thousand and one million-dollar incomes, there were 161 returns, as compared with 163 for 1921. There were fewer returns showing net incomes between four hundred thousand and five hundred thousand dollars than between half a million and one million dollars. One hundred and four returns in that class were reported, or 40 more than in the preceding year.

There were twelve thousand persons reporting net incomes between fifty and one hundred thousand dollars, a gain of 4,000 over 1921: 2,171 with incomes between one hundred and one hundred and fifty thousand dollars, and 763 with incomes

between one hundred and fifty and two hundred thousand dollars. In the lower brackets, the statistics show that 2,471,181 persons paid taxes on net incomes between \$1,000 and \$2,000 and 2,129,898 filed returns of incomes between \$2,000 and \$3,000. There were 785,267 returns in the class from \$3,000 to \$4,000; 404,808 between \$4,000 and \$5,000; 291,373 between \$5,000 and \$10,000, and 90,278 between \$10,000 and \$15,000.

**Smaller Incomes Constant.**  
In the classes between \$1,000 and \$10,000 the number filing tax returns was substantially the same as for the previous years. In each case, however, the number was slightly larger in 1922 than in 1921. From this the conclusion was drawn that the income of some 5,000,000 taxpayers remained relatively constant, the change in the average number through a period of four years being less than 6 per cent.

New York with a net income reported of \$4,110,538,989 and a total tax of \$774,900,079 ranked all states in contributing to expenses of the federal government. That state in 1922 paid 31.82 per cent of the total. Next in order were Pennsylvania with net income of \$3,005,370,020 and tax of \$93,573,559; Illinois with taxes of \$77,196,407 on a net income of \$1,927,637,451, and Massachusetts with a net income of \$1,237,893,477, on which taxes of \$37,781,194 were paid.

### Wadsworth in Jail At Macon on Charge Of Robbing Store

Macon, Ga., July 6.—(Special.)—C. L. Wadsworth, recently indicted by the Bibb county grand jury on a charge of larceny from a Macon department store, was brought here from Atlanta today, and lodged in jail in default of \$2,500 bond.

Wadsworth is said to be the man who attained notoriety last year when he attempted to establish an alibi for J. A. Alexander, who was on trial in the flooding cases in the city court of Macon.

### A Balanced Diet.

One quart daily for children under 20 years.  
One pint daily for adults over 20 years.

Vegetables (in addition to potatoes).  
Two or more servings daily.

Fruit.  
Two or more servings daily.

Cereals (including bread, breakfast cereals and flours).  
One-half or more of cereals in the form of whole cereal.

Chese, eggs, meat (including fish and poultry).  
One serving of any two of the above daily.

Water.  
One and one-half quarts or more of fluid daily.

From the Delineator for June.

Silk lost in the Japanese earthquake is estimated at 42,000 bales.

## Will Boifeuillet Resign From the Public Service Commission? Mr. O. R. Bennett, His Opponent, Says He Will

According to general comment among members of the legislature and citizens from various parts of the state, it seems that the race between Commissioner Boifeuillet and Hon. O. R. Bennett, of Eastman, will be the outstanding feature of the campaign.

Mr. Bennett says that Mr. Boifeuillet promised in his announcement that he would resign from office and retire from public life if any person could point to a single act of his as a member of the commission that was contrary to the best interests of the farmers of Georgia. Mr. Bennett says that he has successfully proven that Boifeuillet's votes favoring 30 odd large shipping centers discriminating against 2,000 small points is distinctly to the disadvantage of the farmers and the rural sections of the state.

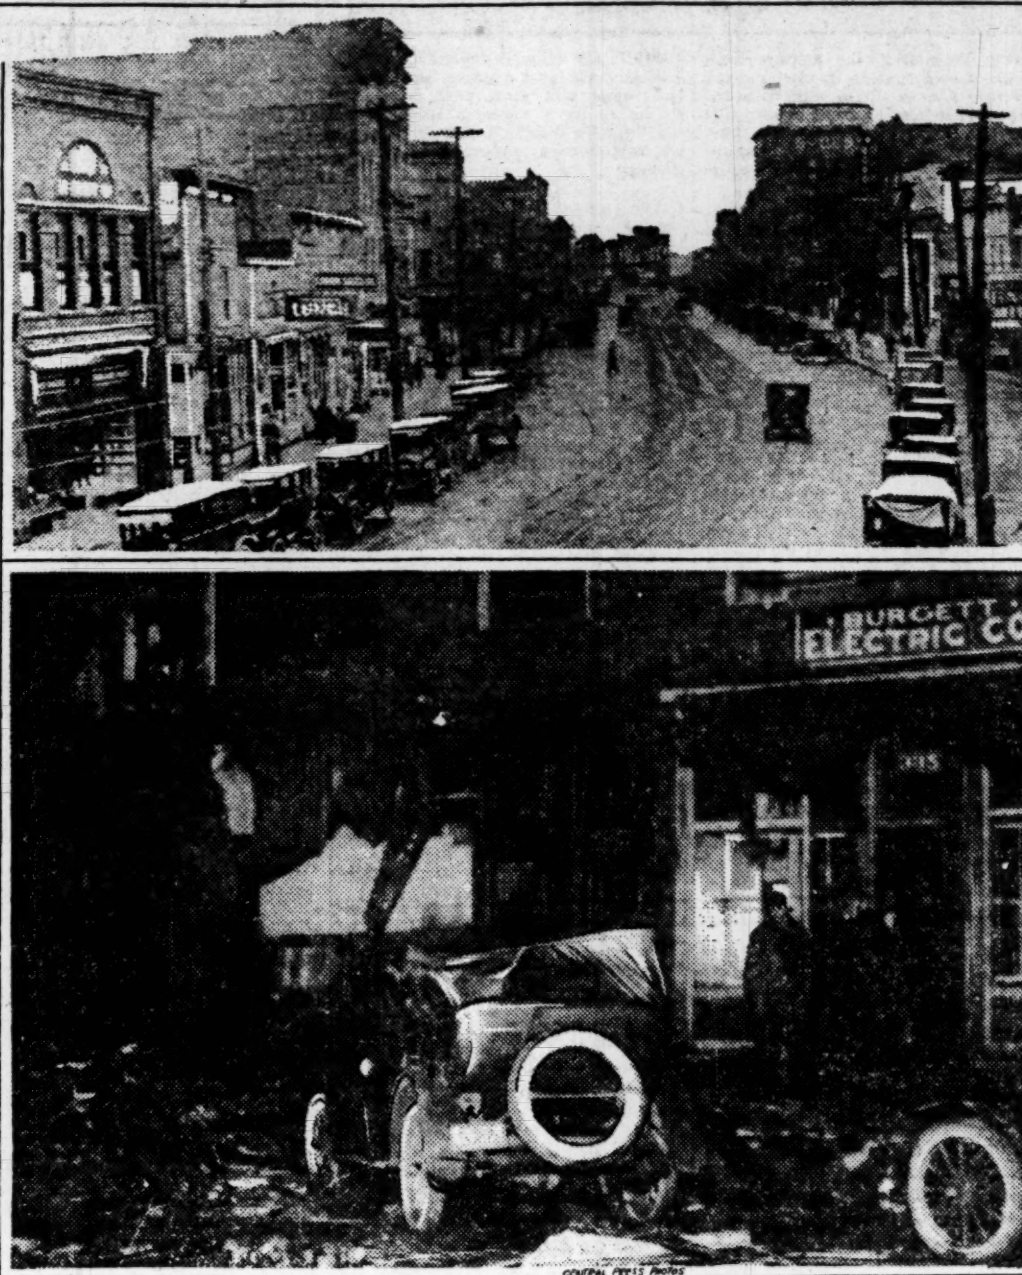

Mr. Bennett also says that the result of Boifeuillet's trip to Washington, D. C., in 1920, whereby the Georgia commission increased rates aggregating \$20,000,000 a year, has worked great hardships on the farmers. Apart from this specific reason he claims that Boifeuillet has forfeited all right to his office by devoting his time to his newspaper work at a large salary, although he was under contract with the state of Georgia to give his entire time to

the duties of his office. He also says that Mr. Boifeuillet's arrogant boast in his announcement that he has held office for 35 years is meeting with positive denunciation throughout the state and that citizens of the state feel keenly the fact that they are taxed to pay his salary of \$3,500 per year when he gives no value in return.

More than a week ago Mr. Bennett challenged Mr. Boifeuillet to name, with three exceptions, any writing he has ever done that gave expression to his views as commissioner during the nearly eight years that he has held that office. Still, we find him writing four lengthy articles each week for The Atlanta Journal, and for which he is paid a handsome salary, contrary to the laws of Georgia and his oath of office.

Mr. Bennett also challenged him to name a single effort he has put forth to reduce any of the rates put into effect by the commission during the period of high prices beginning six years ago. According to information coming from various sections of the state there is a strong indication that the voters will rise in a mass to denounce Mr. Boifeuillet for his persistency in making a sinecure of one of the most important offices within the gift of the voters of the state. —(adv.)

## Lorain Before and After the Tornado

### ATLANTA NEGRO EDUCATOR WILL MEET PRESIDENT

Philadelphia, Pa., July 6.—(Special.)—Rev. R. R. Holmes, president of the Holmes institute, of Atlanta, delivered an address in Mother Bethel A. M. E. church Sunday morning to the citizens of Philadelphia.

The speaker said the best assets to the colored race in America are self-respect, the kind of education which will develop the race along all lines, and good will toward all mankind.

"No race can reach its highest development with malice in its heart," said Holmes. "The best class of white people in the south as well as in other sections always has contributed to the best interest of the colored race."

Holmes closed his address by paying a high tribute to the board of education of Atlanta for spending more than a million dollars for the education of the colored people in Atlanta.

Rev. H. P. Anderson, Pastor J. C. Beckett and W. J. Oliver urged its citizens to make large contributions to the Holmes institute in recognition of the great work it is doing in the south for the training of the colored people.

Holmes left at the close of the meeting for Washington, where he will hold a conference with President Coolidge before returning to the south.

### UNIVERSITY OF TEXAS NAMES NEW PRESIDENT

Austin, Texas, July 6.—Dr. Walter Splan, member of the Texas railroad commission, today was named president of the University of Texas. He will assume his new duties between now and September 1.

Dr. Herbert M. Bolton, of the University of California, was previously elected to the post, but declined today to accept.

Ballon power is used in a unique railroad in Bavaria to haul cars to the summit of a mountain peak.

### TROOPS GUARD POLLS IN MEXICAN ELECTION

Mexico City, July 6.—(By the Associated Press.)—Elections began throughout Mexico today for the selection of a president, the candidates for that office being General Plutarco Elias Calles and General Angel Flores.

With the election of a president, a new house of representatives and about half the senate will be chosen, but the results will not be known for many weeks.

The city awoke today under a veritable blanket of posters of the different local groups supporting General Calles. The streets are being patrolled by troops in motor lorries and armored cars, and except for unimportant isolated clashes at the polls, no disorders have been reported in Mexico City.

The usual Sunday crowds remained out of the streets and there was little, if any, enthusiasm shown for the suffrage.

The supporters of General Flores have already entered several protests on the ground that the deficiency of the registers prevented numerous voters from casting their ballots. They charge also the Callesists with mobilizing groups on motor trucks for voting at the various polls.

### PLAN BETTER ROADS IN MADISON COUNTY

Huntsville, Ala., July 6.—(Special.)—The demand for better roads in the rural districts of Madison county is becoming so insistent that it will be regarded as a good place for Sunday excursions. How long the "blue laws" are to be enforced is not known.

It is estimated that these agreements will cut costs to the county at least 50 per cent, and will permit available funds to be spread over twice the mileage it would if all costs were paid out of the treasury. A public mass meeting is being promoted at which all county road authorities and property owners will be invited to state their views.

### Stage Garden Contest.

Huntsville, Ala., July 6.—(Special.)—A garden campaign which has been in progress all this season in the Lowe mill village, West Huntsville, and the Huntsville knitting mill village has attracted a great deal of interest, cash prizes having been offered by the West Huntsville cotton mills, the Lowe mills and the knitting mill. Many excellent gardens are entered in the contest, and the innovation has not only been interesting, but it has produced much of the food needed by the families contesting. Judges have awarded the first prizes to W. I. Jones, of Lowe village; Steve Smith, of West Huntsville, and Tom McClure, of the knitting mill village.

### To Appoint New Judge.

Huntsville, Ala., July 6.—(Special.)—Appointment of a judge of the inferior criminal court to succeed the late Judge J. W. B. Hawkins, who died Friday, is expected to be made a short time after Governor W. W. Branford returns to the state. Judge Hawkins' term would have expired in January, 1925, and Joe W. Caldwell, who was nominated by the democrats in the May primary for the position, has been mentioned as his successor.

Toronto, Ontario.—Gratifying results are reported by the hatcheries service of the department of marine and fisheries from the work of restocking Lake Ontario with whitefish. The great catch of this species taken by Canadian lake fishermen during the season of 1922 totals 21,020 hundredweight, as compared with 12,034 hundredweight in 1917 and 1,236 hundredweight in 1915, gives a good idea of the extent to which the whitefish fishery has been reestablished in this great inland body of water.

"How could you condemn harmless cranes for witchcraft?"  
"Well, you know how it is when a dame has no looks."—Louisville Courier-Journal.

### Atlanta Northern Express Service Now in Operation

Express service on the Atlanta Northern railway began today when two limited, or express, trains were placed in operation between Atlanta and Marietta. The express trains are scheduled to make the run between the two cities in 50 minutes, with no stops between Atlanta and Smyrna in either direction.

Two trains of two cars each have been designated as limited trains and in addition to furnishing speedier service are expected to relieve other schedules, thereby improving the service generally.

The express trains leave Marietta daily, except Sunday, at 6:05 a. m. and 7:08 a. m. They will make all local stops between Marietta and Fair Oaks, inclusive. The only other stop between Fair Oaks and Atlanta will be at Spring street, in Smyrna.

Daily, except Saturday and Sunday, the limited trains leave Atlanta at 5:25 p. m. and 5:53 p. m. The first stop after leaving Atlanta will be Spring street, Smyrna, and between Fair Oaks and Marietta, inclusive, all local stops will be made.

The balance of the service, week days, Saturdays and Sundays, will remain the same as at present with the following exceptions:

Out of Marietta—Local train now due to leave Marietta at 5:56 a. m. will leave at 5:52 a. m.; train now due to leave Marietta at 6:30 a. m. will leave at 6:24 a. m.; train now due to leave Marietta at 7:00 a. m. will leave at 6:54 a. m.

Out of Atlanta—Train now due to leave Atlanta at 5:58 a. m. will leave at 5:52 a. m.; train now due to leave Atlanta at 6:30 a. m. will leave at 6:24 a. m.

### "BLUE" SUNDAY ORDERS REIGN IN HUNTSVILLE

Huntsville, Ala., July 6.—(Special.)—The first "blue Sunday" in many years was tried out here today. The sheriff of Madison county let it be known that no places of business would be allowed to remain open except hotels, restaurants and drug stores, and that drug stores would be restricted to the sale of drugs. Gasoline filling and service stations were under orders to observe the letter and spirit of the law under penalty of being arrested, and there was a very general observance of the order.

For years past Huntsville has been more or less open, and it had come to be regarded as a good place for Sunday excursions. How long the "blue laws" are to be enforced is not known.

### ANNOUNCE PRIZE LIST FOR HUNTSVILLE FAIR

Huntsville, Ala., July 6.—(Special.)—The premium list of the Madison county fair for 1924 has been issued and there is a notable increase in the number and amounts of prizes offered. The fair will be from September 16 to 20, inclusive, and it is expected that it will be the largest yet on by the present association. The agricultural exhibits are expected to be of particular excellence, many farmers having planted their crops with an idea of having exhibits at the fair.

Tomatoe plants in a garden usually indicate that the soil is too acid. The most effective remedy is liming the soil.

ers showed that out of 4,300 species of flowers cultivated in Europe, only 420 possess an agreeable perfume.

## AMUSEMENTS

### "Mary the Third."

(At the Lyric.)  
How three generations of young girls made love is revealed in "Mary the Third," the merry Rachel Crothers' comedy-romance which the Lyric players present all this week. Opening with ladies' bargain performance to-night, it continues each night and at Tuesday, Thursday and Saturday matinees.

Miss Isabelle Lowe assumes the characters, successively, of the girl of 1870, of 1897 and of 1924 to illustrate, in a refreshing way, how little times have really changed.

### Hodges Musical Comedy.

(At the Forsyth.)  
"Pitter Patter," the sensational New York musical comedy success, will be presented this week at the Forsyth theater by Jimmie Hodges and members of his company, including all the comic and scenic fixings that made the show one of the most talked of in recent years.

The show is in three acts, with five scenes and a score of catchy songs and novel dances that are just the kind the Hodges company do best. Jimmie Hodges is given a part in which his store of humor seems inexhaustible.

### "Tunes and Steps."

(At Loew's Grand.)  
"Tunes and Steps," a big headliner with a cast of five people, is the feature vaudeville offering at Loew's Grand theater this week. Four other acts, all of the all-star variety, are on the bill. Blanche Sweet is the star in the massive photoplay, "In the Palace of the King."

### Gloria Swanson.

(At the Howard.)  
The Howard theater feature screen attraction for this week is glorious Gloria Swanson in her latest Paramount picture, "Manhandled," which is the first of the famous 40 Paramount wonder productions to be released this fall. Here is a picture with a climax as sensational as its title—a story of a salesgirl in a big New York department store, who is out for a good time, willing to receive everything but give nothing in return. She falls in with men who misjudge her idea of a good time, and the girls come around to her right senses with a bang. See it.

### "Tiger Love."

(At the Rialto.)  
"Tiger Love," a new Paramount picture directed by George Melford, opens at the Rialto theater today to remain for six days. Antonio Moreno and Estelle Taylor are featured in the production, which was adapted from "The Wildcat."

It is a story of Spanish love and adventure which gives the two stars a great opportunity.

### FLORISTS TO MEET TONIGHT TO DECIDE ON OUTING PLANS

The Atlanta Florists' and Horticulturists' club, affiliated with the Atlanta Retail Merchants' association, will meet at 8 o'clock tonight at the Chamber of Commerce assembly hall, for the purpose of making definite plans for the annual summer outing and barbecue of the association, which has about 125 members.

It is planned to hold the annual celebration this year Wednesday, July 10, at Cooper's lake, near Atlanta. The entire grounds on this date will be turned over exclusively to the florists and their friends, all of whom will go out in automobiles after staking an imposing exhibition through the principal streets of Atlanta, preceded by a police escort.

### NAME NEW SECRETARY FOR GRIFFIN CHAMBER

Waycross, Ga., July 6.—It was announced today that C. C. Thomas, who was for many years secretary of the Waycross Chamber of Commerce, has accepted a similar position at Griffin. Mr. Thomas is widely acquainted throughout south Georgia, and for a long time took a leading part in Waycross affairs.

## Vamped Prince and King

Rosetta Duncan's Charms Do Not Impress Cicero Police  
But Failed With Hick Cops

Chicago, July 6.—The famous dancing Duncan sisters, who are reported to have vamped the Prince of Wales and King Alfonso, had a lot less luck with the hick cops of Cicero, Chicago's "bad-boy suburb."

Rosetta Duncan, one of the sisters, who are now starring in a musical comedy enjoying a long run here, declares she was beaten up by a number of Cicero cops who presumably don't know Rosetta or the Prince of Wales either, for that matter.

Rosetta claims a broken nose and a broken rib and, anyway, she's all bandaged up, even though she insists her broken bones cannot keep her from appearing in the show Monday with her sister Vivian.

On the other hand there's the story of the Cicero cops, who claim there was a very fine beating administered, but that it was they, who, unarmed save for their bills and guns, were badly man-handled by Rosetta, who weighs all of 103 pounds.

Hence a court will have to decide who's fibbing about the fracas that occurred following a holiday automobile ride in which the Duncan sisters and a few of their friends were taken

### Waycross Real Estate Values Are Booming; Subdivisions Opened

Waycross, Ga., July 6.—(Special.)  
The opening of the College Hill subdivision has proved that many citizens of Waycross have decided that the city has grown to the size where it is desirable to locate residences away from the business section. H. D. Dunn, the largest taxpayer in the county, and owner of the Dunn building, has purchased an entire block. Dr. B. H. Minchew, one of the leading specialists of the city, and E. K. Bennett, prominent member of the Waycross bar, purchased a block. Many others are purchasing single or double lots. Waycross has been especially interested in this sale, because it was a test of public confidence in the future growth of the city. These purchases are evidence of the faith in the future, and also proof that Waycross will soon have what she has hitherto lacked—a residential section. All the subdivisions inside the city limits, and is located just in the rear of Piedmont institute, the Baptist secondary college here.

Another healthy indication this week was the successful opening of the Dearborn park subdivision, in which 44 lots were sold in one afternoon.

The Coffey-Miller entertainers, college and university classical comedy specialists, will perform at Emory university July 15 and 16. Moliere's "Imaginary Invalid" will be offered Tuesday night, July 15, and Sheridan's "The Rivals" on July 16. Performances will be held in the amphitheater, and in the case of rain, will take place in the university chapel.

Tickets may be secured from any member of the staff of "The Hub," the Emory summer school publication, which is sponsoring the performances. The Coffey-Miller company is making its first trip to the south during the summer.

### 1 KILLED, 3 INJURED AS AUTO OVERTURNS

Turrell, Ark., July 6.—William East, aged 23, son of a prominent planter, was killed, and W. G. Filipo and Mr. and Mrs. J. C. Presto, of Turrell, were injured when an automobile in which they were driving to Turrell turned over an embankment near Clarkedale, Ark., late today. They were attempting to avoid striking another automobile.

## We Will Continue Our Extra Low Prices Until July 15th

Our big reductions in price announced for June met with such response and increased our practice to such volume that we have decided to continue these low prices until July 15th.

## BODIES OF FIVE BOYS FOUND IN BURNED HULK

Baltimore, Md., July 6.—The bodies of five boys, members of the Baltimore Evening Sun's newsboys' band, and that of a negro were found on the hulk of the bay steamer Three Rivers today when the remains of the vessel, which was burned to the water line in Chesapeake bay early Saturday morning, were towed into Baltimore.

This brings the total number of victims of the fire to ten and accounts for all those known to be missing.

The body of a white man was found floating in the bay off Cove Point late yesterday, and shortly before the body of a negro, around which was strapped a life preserver of the Three Rivers, was washed ashore.

The bodies of two other negroes had been found shortly after the disaster. The steamer was en route to Baltimore from Crisfield, Md., when the fire was discovered on the saloon deck, about midnight. It gained headway rapidly, and the passengers and crew were forced to take to life boats and life preservers. Several passing steamers came to the aid of the burning vessel and picked up more than 50 of the survivors.

An investigation has been begun by the Baltimore, Chesapeake and Atlantic Railroad company, owners of the ship, and the board of United States steamboat inspectors in Baltimore will start an inquiry this week, it was announced.

Probably more than 2,000 bathers could be accommodated in the bath of the steamer. During the days of the empire, six of these enormous establishments were constructed.

## A Lucky Find

"The largest find of sapphires ever made in Ceylon is reported from Pelmadulla, by way of Colombo. The gems, which were found on a field about two acres in extent, at a depth of from four to fifteen feet, include yellow, gold, purple and blue stones of 20 to 700 carats, some of them weighing as much as half a pound. The owners of the field received five or six rupees for the stones found."

Probably the above article accounts for the popularity of the lovely sapphire rings so smart this season.

A lucky find for you if you purchase one of the beautiful sapphire rings we are showing—some set with fine diamonds.

## Mother Killed By Son Playing With Shotgun

Birmingham, Ala., July 6.—Mrs. Nellie Arnold Dean, wife of Dr. James E. Dean, president of the Old Testament Baptist Bible Institute of New Orleans, died at 5:30 o'clock Sunday morning in a local hospital from a gunshot wound accidentally inflicted by her nine-year-old son. The accident occurred late Saturday afternoon at the home of M. Crowell, Dr. Dean's brother-in-law, at Arkadelphia, Ala., where Dr. Dean and family were spending their vacation.

Members of the family are said to have been teaching the child how to use the gun and when one laid it down he picked it up and is said to have been playing with it when it discharged. The loss took effect in Mrs. Dean's back. She was given first aid treatment by a local physician and rushed to a hospital here. The body was returned to Arkadelphia this morning where funeral services will be held Monday afternoon.

## YEN'S NAME SUBMITTED FOR CHINESE PREMIER

Peking, July 6.—(By the Associated Press.)—President Tsao Kun is reported to have submitted to parliament the nomination of W. W. Yen for premier.

Dr. Yen was minister of agriculture and commerce in the cabinet of Premier Sun Pao-chi, which resigned a few days ago.

Dr. V. K. Wellington Koo, the foreign minister, has been acting as premier since the retirement of Sun Pao-chi.

## Contradictory Remedies.

Oregon is given to hold brain throbs, to virginity in thinking. More than once she has turned from the state political tripe, offered by second-hand minds, to prescribe for herself.

Lately she has done some snappy mental setting exercises on the problems of agriculture. For like every other farm state, she has farm trouble. Her fruit, stock and grain growers are men of sorrow, acquainted with grief. Also, these farmers have the earache, and are bewildered.

Many voices are in the air. To Oregon, as to every farm state from coast to coast, has come an avalanche of advice—wise and otherwise.

Culled from this chorus of contradictions, here are a few of the cries that bothered Oregon, just as they bothered Kansas, Kentucky and Georgia. See how confusing they are, paired and posed, the axes against the axes and who to say whether the axes or the axes are right.

Congress must act, to save our agriculture. Laws can't save the farmers. Grow more of what Europe wants. Grow less of everything. Give more farm credits. Give less; too much hurts—look at the northwest!

Crucify the middleman; everybody co-operate. "You can't," says the economist. "He's a part of the works; he brings city skill and capital. How could a farmer growing onions in Texas drive a delivery wagon in Chicago?"

Raise the tariff! Lower the tariff—the farmer's sugar costs too much. More duty on Canadian hard wheat. Yes—and your bread will cost you more, objects the baker.

Back to the land! More duty on Canadian hard wheat. Yes—and your bread will cost you more, objects the baker. "Raise the import duty on cattle," Texas cries.

"Take it off," urges Iowa—so we can import feeders from Canada. Millions for irrigation—more open spaces for would-be farmers. Stop it—too much land is already plowed.

This conflict of interests, political and economic; this friction between competitive geographical areas—north against south, east against west—all these clashes are factors in our national farm problem. The Nation's Business.

## Hats Show Signs of Fall.

In hats alone do we find the first symptom of fall in the shops. Judging from the collections the autumn hats promise to remain small. There is a concentrated effort to do away with the cloche, says the Dry Goods Economist, and these never before turn up sharply at the side to descend at the opposing point. Crowns are higher and squarer, in telescope effect.

Satin for early fall, latter's plush and velvet for later, and of course some felt, seem to be the predominating media. Black and brown, with black in the lead, are the favored colors.

In trimmings we find a marked endorsement of black ribbon—satin, moire, grosgrain—and birds rather than feathers find representation. In one instance tiny bird heads lined up in close formation form the entire brim of a black, latter's plush hat. The bird treatment has already been accepted on summer felts.

Ostrich tufts are smart, often daintily placed in the center front. Trimmings at large occupy a lateral position and are usually of ribbon smartly looped or, as in one instance, a nail-head band that completes a brown daisy hat edged in a fringe of gauze fur.

"I am the editor of a seed catalogue. "How do you get new copy?" "Oh, we have a few contributors who originate flowers and vegetables." Louisville Courier-Journal.

Moth-proof clothing, made of cloth treated with an odorless liquid, is being introduced in this country.

## Tracks Washed Away On Savannah Line; Traffic Is Held Up

Savannah, Ga., July 6.—Fifty feet of track on the Savannah and Atlanta railroad, two miles west of Hiltonia, was washed away tonight, holding up train No. 1, with passengers out of Savannah. Section crews were put at work immediately, and normal traffic will be started soon. The washout, due to excessive rains in that locality, was discovered before any accident occurred.

## DANIEL CELEBRATES 15TH ANNIVERSARY

Sunday marked the fifteenth anniversary of the pastorate of Dr. Charles Daniel at the First Baptist church. W. W. Orr made the many address. Dr. Daniel delivered both sermons at the First Baptist church Sunday. The subject of his morning address was "Blessings of Obedience," and at night "Words of Truth," the third of a series of sermons on "Practical Religion" that he has been giving for the past two weeks.

## Huntsville Man Dies.

Huntsville, Ala., July 6.—(Special.)—Andy Troop, 53, well-known citizen of West Huntsville, died suddenly Saturday at the home of his sister, Mrs. Laura Pettus. Mr. Troop had not been ill but was out among his friends in West Huntsville just before the heart attack which caused his death. He fell as he walked into the home of his sister and was dead before medical aid could reach him. He is survived by his sister and four brothers.

## HAS NO NOTION OF WITHDRAWING

Continued From First Page.

ers designed to bring about an end of the deadlock, Mr. McAdoo reported to his friends that negotiations were still in progress, and that no decision was reached he did not feel at liberty to discuss the matter.

Insisting that there was an incorrect impression that the conference was called to bring about withdrawals of candidates, Mr. McAdoo said that such was not the case, and that any effort was being made, or that any of the functions of the convention. The purpose, he asserted, was simply to end the deadlock.

Mr. McAdoo declared he was before the convention in a different attitude than any other candidate. He called that he received the endorsement of many state delegates through primaries or conventions, he told the delegates that he was in the convention to "carry out the mandate of the people."

Delegates Renew Support. Conclusion by Mr. McAdoo of his address in which he declared his position with regard to withdrawal again and again, was marked by adoption by the delegates by a rising vote of a resolution pledging anew their support. The concluding paragraph said:

"We, representing the mandate of the people whose representatives we are, but one duty to perform—to obey the instructions of our constituents and stand unflinchingly for the nomination of William Gibbs McAdoo."

The resolution in its preamble declared that the democratic delegates assembled believed that McAdoo "is the outstanding and inspiring leader of progressive democracy, the man who would carry on the tradition of the principles of Woodrow Wilson, one whose sympathies have manifested themselves in measures for the assistance and advancement of those who must labor to live."

Commend His Fitness. The resolution also asserted that "no man before the American people has so splendid a background of achievements," and added that no man combined in so great a degree as McAdoo the "courage, sincerity, honesty, vision and experience" that are needed in the solution of the problems facing the nation and "up the solution of which rests the preservation of basic industries and relief for millions of our most industrious people."

McAdoo reached the hall after the meeting had been in progress for more than an hour. Claude N. Sarno, of South Carolina, was in the midst of an address in which he assailed George E. Brennan and "other bosses of the democratic party." As Mr. McAdoo stepped into the meeting room, a fore-runner advanced, raised his right hand and announced to Governor Fields, of Kentucky, who was presiding:

"Governor, here is the chief." McAdoo heartily cheered. Immediately the audience of several hundred men and women was on its feet applauding and cheering as McAdoo made his way down the aisle to the speaker's platform.

Mr. McAdoo declared he would exert every possible effort "compatible with honor and the trust imposed upon me" to end the deadlock in the convention. "It cannot," he said, "be continued, 'that McAdoo delegates have obstructed the work of the convention. They are here to serve democracy and rightness. And we are willing to go the limit to expedite the work of the convention.'"

Approves League Plank. Mr. McAdoo's only comment on the platform adopted by the convention was directed at the league of nations referendum plank, which he declared was "wise" would serve the purpose of keeping the issue out of politics, would enable the people to express their verdict, and, he predicted, "will result in a repudiation of the policy of isolation."

The candidate concluded a fifteen-minute speech with the remark that he hoped delegates loyal to him would "shortly be released from their labors and go home happy in triumph."

Appealing to women delegates to work for Mr. McAdoo's nomination with increased vigor, Mrs. Alexander Thompson, Portland, Ore., declared that the women of the convention refused to be boss-ridden or to be bound by party rules or traditions unless they suit us."

Declaring that in McAdoo "we have a man who will lead us to victory," Mrs. Thompson asserted that unless the democrats nominated "a truly progressive" La ollette would get the vote of the "real people."

Announcement that women delegates supporting Mr. McAdoo would organize to bring into line delegates in other camps was made by Mrs. Florence Farley, democratic national committeewoman from Kansas.

REV. JOHN W. HAM QUILTS PASTORATE

Continued From First Page.

and goodness of God toward us as pastor and people. We became identified with this work as assistant pastor, January, 1910; this relationship continued for three years, during which time our church witnessed its greatest building era. The present magnificent edifice was constructed during this period. These ties were severed at the close of 1912, and resumed again in September, 1913, at which time we became the pastor. This fact is unique in American church history. The leadership of Providence was such that we all felt it to be the will of God that

## Carnegie Hero Medals

are given for saving human life, but there are more ways than one, and this coupon may save your life!

One death out of every ten after the age of 40 is caused by cancer.

The number of recorded cases of cancer is steadily increasing throughout the world. Only too often the utmost skill of modern medicine fails to save the cancer patient, because the patient comes to the physician TOO LATE.

In the two years and a half that the U. S. was engaged in the great war, about 80,000 soldiers were killed or died of disease. During the same time cancer caused the death of 180,000 people in the U. S. A large proportion of these deaths represented a needless waste of human life.

Our Washington bureau has ready for distribution a 65-page booklet specially prepared by the American Society for the Control of Cancer that tells WHAT EVERYONE SHOULD KNOW ABOUT CANCER.

Send for it—IT MAY SAVE YOUR LIFE OR THE LIFE OF ONE DEAR TO YOU!

Fill out and mail the coupon below as directed:

CANCER EDITOR, Washington Bureau, Atlanta Constitution, 1322 New York Ave., Washington, D. C.

I want a copy of the booklet, WHAT EVERYONE SHOULD KNOW ABOUT CANCER, and enclose herewith five cents in loose postage stamps for same:

Name \_\_\_\_\_

St. and No. or R. R. \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_

Years of Struggle.

A few figures will tell the story of years of struggle, heartache, tears, blood-sweating, joy and victory. The minutes of the convention reveal that in 1916-17 34 united with this church. The following year 200 joined. There has been a steady increase in evangelistic results within the past nine months, 260 having united with us, completing a total of 2,276 additions to the membership in seven years. According to the auditor, the membership now stands at 3,200.

We found at the beginning of this pastorate a mortgage of \$114,000 on the building, and a membership of 922 souls greatly discouraged over the outlook. Plans were instituted to retire this obligation and release the work from its onerous burden. That had handicapped it a handicap. By heroic action, self-sacrifice, and generosity of friends outside the membership, the mortgage was paid, the money was burned in the presence of thousands in January, 1920. We have raised since the pastorate began \$40,000 for all purposes.

The work spiritually has grown by leaps and bounds during the years. The Sunday school with an average attendance of 600 per Sunday in 1917 has now an average attendance for the year of 1,841. One B. Y. R. U. was in existence seven years ago; today there are four.

The Bible conference which has made this church famous, was discontinued in 1913, being in the opinion of all the greatest in its history, in spirituality and attendance. By the loyalty of our choir, we have maintained a musical program with one of the finest choral choirs in America. This feature of the service has been one of the chief attractions in our worship.

The Women's Missionary Auxiliary, by heroic action, self-sacrifice, and generosity of friends outside the membership, the mortgage was paid, the money was burned in the presence of thousands in January, 1920. We have raised since the pastorate began \$40,000 for all purposes.

Seventeen are Ordained. God has been calling from our membership ministers and missionaries. As a church, we have ordained seventeen men of the full measure of the ministry during the present leadership. We are now preparing a missionary for the foreign field; this sacred trust will come to discharge until the preparation is complete.

Sometime ago, a lot was purchased at the rear of the church for the purpose of the erection of a new building. We are a Young People's building to adequately house the growing work of the Sunday school and societies. That goal is a challenge of the future to the best endeavor which you are capable.

It would be impossible to enumerate the many kindnesses the church as a whole, and as individuals, have bestowed upon us. These beautiful acts will never be erased from our memory.

You will, I am sure, pardon a personal reference in expressing appreciation and gratitude for the financial assistance which you have bestowed upon us, when we render public expression to Mr. and Mrs. H. N. Rainey for the wonderful gift of a trip to the Orient for the pastor and his wife. Mr. Rainey having just gone home, in yet another way, we are indebted to you for the gift of a trip to the Orient for the pastor and his wife. Mr. Rainey having just gone home, in yet another way, we are indebted to you for the gift of a trip to the Orient for the pastor and his wife.

Calvin Coolidge, Jr., AT DOOR OF DEATH

Continued From Page One.

expected, but the gravity of the situation was not alleviated. President and Mrs. Coolidge spent the night at the bedside of their son. Mrs. Coolidge accompanied him to the hospital, and the president followed soon thereafter. The president visited the white house for a short time early today, but returned later to the hospital. Mrs. Coolidge, except for a short ride, remained there throughout the day and both were there again tonight.

The mother and father are taking the illness of their son much in the fashion that the average American parents would act under similar circumstances at the bedside constantly. Information Given Informally. No official bulletins have been issued.

circumstances. President Coolidge has endeavored for the past several days to carry on his work as far as possible, but ever with an eye on the sick room. Mrs. Coolidge has been sued from the white house. Information as to the condition of the boy has come always informally, as would be the case in most American homes.

A constant stream of messages of hope for young Coolidge's recovery came today to the executive mansion. At the hospital numbers of friends called.

Every resource of modern medical science has been used in an effort to reinforce the boy's young, but frail, constitution in the battle with the septicaemia. The situation has left a slender, but definite, hope for his survival, although the grave nature of the malady has been indicated by the speed with which it has spread.

Specifically, his physicians with

their laboratory instruments found needed was simplified, it was said, although in no way was the danger lessened. Physicians were understood, now that their patient was in the hospital surroundings, to be able to take instant action to cleanse and drain any new local concentration of the infection.

The patient's youth has been counted upon heavily by the doctors to bring him through, but his rapid growth recently has served to make him less robust than is usually the case with a 10-year-old boy, and this condition has made the fight a harder one.

To some degree, the treatment

needed was simplified, it was said, although in no way was the danger lessened. Physicians were understood, now that their patient was in the hospital surroundings, to be able to take instant action to cleanse and drain any new local concentration of the infection.

## Carey READY ROOFINGS

### For Farm and Factory Buildings

THERE is a Carey Ready Roofing for every farm and factory building. Among the many different styles and weights you can find the particular roofing that exactly meets the particular requirements of the building you are putting up or wishing to re-roof.

For example: Carey Ready Roofings include Lastile, surfaced with blue-black, red or green slate, ideal for farm buildings; Mike-Kote, a durable mica-surfaced roofing for factories, an extra-heavy ready roofing that has made good for years on large buildings of every type.

Come in and let us help you choose the right roof for your building.

## Cracker-Lookout Contest Rained Out; Atlanta Nine Plays Little Rock Today

Chattanooga, Tenn., July 6.—(Special.)—Rain kept the curtain from being raised here today on the diamond scheduled between the Atlanta Crackers and the Lookouts. With the raining out of the game Bert Niehoff pushed his ball-playing delegation into a train for Little Rock and the Lookouts out in the day playing mumble-pug and resting in preparation for the double-header here tomorrow with Larry Gilbert's Pelicans from New Orleans.

Dope on the New Orleans games here was knocked in the head by the Lookouts themselves last week when they whipped down the Memphis Chickens, leaders in the Martin series for some weeks and months back.

The departure of the Crackers from Little Rock sent the Atlanta outfit on the road toward its easiest meat of its two weeks' road trip just starting. Kid Elberfeld's Travelers haven't been doing so much lately, even though they have an imposing array of talent.

Four games are scheduled for the Crackers in Elberfeld's domain. The affair tomorrow is to be a regular one-game attraction, but Tuesday will be a bargain day with a double bill scheduled. The final game of the Little Rock series comes on Wednesday.

Dick Barcus, stellar first-sacker of the Crackers, who has been out with yellow jaundice for two weeks, was not with the Niehoff ballplayers today, but will join them Tuesday in Little Rock and probably will be back in the lineup for the double bill. He will leave Atlanta Monday for Little Rock.

When the Crackers snap out of their series with the Travelers they meet their worst foes, the Chickens, on the latter's own lot. Four games are scheduled, the plan being one game each on Thursday, Friday, Saturday and Sunday.

## U.S. POLO TEAM N. Y. GOLFER BEATEN BY ARGENTINE WINS FRENCH AMATEUR

St. Cloud, France, July 6.—(By the Associated Press.)—Argentina today emerged victorious from a terrific duel with the United States for supremacy in the world polo, winning from the North American team by the narrow score of 6 to 5.

In a heart-breaking finish, with the score tied 5 and 5, one minute from the final bell, Jack Nelson, the Argentine star, brought the spectators to their feet cheering and applauded wildly by scoring the goal which meant victory for South America.

If the United States team had won today she would have clinched the Olympic championship, having won all four of her previous matches. The Argentines, however, still have to defeat both France and Great Britain before attaining championship. That the South American team will win is regarded as almost certain, the Yankee quartet being the only serious contenders.

Tommy Hitchcock, playing No. 2 for the United States, was injured during the sixth chukker by being struck in the groin with a mallet. He fell from his horse and was out several minutes while doctors worked on him. After lying prone on the grass for a while he got up and insisted on resuming play.

The battle today was bitterly fought throughout, and until the injury to Hitchcock, it appeared as if the match might run into extra periods.

## "You would get all the men in town"

Sending their suits to you, Mr. Stoddard, if you could only bring each man up to your plant and show him how you do things up here. You wouldn't have to spend ten cents in advertising."

This was the impression of a prominent advertising man who paid us a visit recently. He marveled at the fact that we did so many things, looked after so many details and had so many specialists work on different parts of a suit.

We pay return postage.

CHICKS OUT-SLUG BARONS.

Memphis, Tenn., July 6.—In a free-bitting contest Memphis out-slugged Birmingham today and won by a score of 5 to 3. Jones was touched up to three runs in the second and Clarke, who relieved him in the fifth, when Memphis scored two runs and won the game.

On the last hole both players got away with fine drives, and Anderson took the lead for the first time at the fourteenth hole of the second round, becoming one up.

Tolley was one up at the ninth hole of the first round and finished the first eighteen with that margin. He won the first two holes of the second round and at the ninth was still leading by two. Anderson came back with some splendid golf and squared the match at the thirteenth hole. He then took the lead, winning the fourteenth and fifteenth and saving the sixteenth when Tolley's ball jumped out of the cup. He lost the seventeenth.

# SLAMS AND SALAMS

By Louise Dooly

BY LOUISE DOOLY.

O. HENRY, in one of his stories, told about a highly domesticated man, a model husband and father, who, without warning, disappeared from home, and the detective strength of the whole country failed to locate him. His health and his finances had been all right, and as far as anybody knew there had never been a rift in the even sunshine of his existence.

After a while a friend happened upon him in a hotel cafe in a city clean across the country, and he was with a lady.

We forget the detail of the story, but the lady was a flame of his youth, and there was something about the reminiscent fragrance of white roses, which, in spite of the brain lapse that made him forget his name and home place and all his immediate past, had mysteriously waited him back to the scenes of his early love.

When he sees the friend, the spell is broken, and, with the air of a man slowly awaking from a long sleep, and a muttered "Where am I?" he comes back from the land of white roses to the world of domestication. The friend is a real friend, listens seriously to the aphasia symptoms, and agrees to wire them home to the wandering husband's wife and business associates. But just for a moment when husband and friend are alone, both gentlemen have their tongues in their cheeks.

APPLIED PSYCHOLOGY.

NOW we are wondering if this classic of O. Henry's has been taken over by the medical profession as one of its textbooks.

Everybody knows that doctors are taking psychology more and more extensively into the treatment of sick people.

Also, it is no longer a joke—that old question—"Has Jones gone away on a pleasure trip?" and the answer, "No. He took his wife with him."

Doctors everywhere are prescribing more and more frequently not only change of scene and air for their patients, but separation for a few days or a few weeks from the patient's loved ones.

Can it be that the doctors are wise enough nowadays to anticipate a threatened approach of aphasia, and use the preventive before it is necessary to apply the cure for excessive domestication?

THE HEART GROWS FONDER.

BE it said for the women, their doctors are finding that they need at times an absent treatment similar to that of the men, which latter situation brought about the other night, in a group of detached husbands and wives warding off aphasia, a story about a woman who was living in Chicago while her husband was spending most of his time in the Orient.

"You don't see much of Charles now," remarked an old and intimate friend, happening upon the lady.

"Nothing wrong, I hope?"

"I shouldn't say wrong," answered the lady, "but we find our happiness differently. Most people you remember Richard le Gallienne's 'Quest of the Golden Girl,' in which husband and wife spend eleven months in the year together; then for the twelfth month they separate, each goes his own way, and when they come together again neither asks the other any questions, or volunteers any information about how and where the twelfth month has been spent."

"Well, Charles and I find the system excellent. Only we have improved on it. We go our own ways for eleven months, and then have the twelfth month for reunion."

WHAT WE MISSED.

IN the matter of health, all of us are not as lucky as in the dusky servitor who, with great emphasis, three full meals a day before us.

"Were you sick this morning, Ham?" we asked one day, when he had not appeared at breakfast time.

"No, I never get sick, not even a headache or a toothache. The army doctors didn't take any stock in me at all, because they couldn't never find anything wrong."

"You see, Miss, when I was eight years old, and lived in a small settlement, a herb doctor—they call his medicine 'yarbs' in the country—came around and tried to get my mother to buy some herb medicine for me."

"She told him she didn't want any because I wasn't sick. But he kept coming and coming round, and pestering her, and telling her how good his medicine was. It would keep me from ever getting sick, because it was good for everything I might take."

"So, after while, she bought some and gave me a good dosing, and sure enough, I never have been sick."

"The English is Ham's. He did have some schooling. He did have some schooling. He did have some schooling."

We tried to get the address of the herb doctor from Ham for ourself and friends, but it is just another one of

the great discoveries found once, and lost, never to be found again.

THAT TIRED FEELING.

WHICH incident reminds us that a newspaper of national note and influence rather surprisingly quoted a physician of some prominence the other day who said that people give way too easily to fatigue. They admit they are tired and quit, when they have merely lost the first zest in doing a thing.

At that, there are plenty of instances of the truth of the statement, but the danger lies in its incompleteness, its baldness, which does not take account of the fact that a great quantity of the physical and mental breakdowns, which are increasing menaces to the efficiency of the country's man power, come from just the contrary condition: most people do not give up soon enough to fatigue.

Especially if they start with health and strength, they are too prone to take undue advantage of it, until the strain, whether in work or pleasure, or both, is greater than the resistance.

The unvarnished statement of the physician quoted above—and we are obliged to believe that an entirely different light would have been thrown on his meaning if he had been quoted more fully—is particularly dangerous at this time of hot weather, when vacation plans simmer in the heat.

There is no man or woman, however robust and wholesome minded, who is not favorably stimulated, or happily relaxed, as the case may be, by a complete change, at least for a few days or weeks in each year, from the routine, both of occupation and contacts, which belongs to the rest of the year.

A SERIOUS MOMENT.

WE have seen no more memorable contribution to the avalanche of secular literature on the theme of religion than the differentiation between the fields of faith, science and opinion as stated by that brilliant British essayist, Hilaire Belloc, when he says:

"The definition of faith is the acceptance of a truth, and the refusal to entertain the possibility of an opposite to that truth, although proof is absent. Faith must be coincident with reason, but it is not established by reason. Science is the acceptance of a truth, and the refusal to admit the possibility of an opposite, with reason, but it is not established by reason. Opinion is the partial acceptance of an affirmation, the opposite of which is still regarded as possible."

Our friend, Mrs. Will B. Gay, who has always lived in large cities, has recently taken up her domicile in the small town of Billville.

"If virtue were spectacular," she writes us, "Billville would headline every morning newspaper."

## Fair-Weather Wives

BY MILDRED BARBOUR

TRYING TIMES.

It wasn't long before the household at Soundview was running in its accustomed groove without the tiniest evidence of this disturbing ripple which the advent of Leila and her invalid husband had caused.

Only in the heart of Marjorie was there bitterness and the sense of lost hope. She had accepted the burden of Leila and Ivan without protest, after that first night of their arrival when she had talked so frankly to Leila. She had definitely abandoned any hope of her ultimate freedom, for the specialists who examined Ivan shook their heads and failed to hold out promises. As seemed as though Ivan's career as a singer was done.

Leila's behavior was shameful. Her attitude of sulky tolerance, almost of accusation, must have been unbearable to Ivan. He would lie wrapped in rugs on a couch before the fire, or in a steamer chair on the portico when the weather was fair, and watch Leila silently. There was an air of such hopelessness, such pathetic abasement about him, that Marjorie's heart was wrung. She did not begrudge him the sacrifice she was being forced to make for him. He looked so like an old worn-out dog who knows his demise is wanted by an impatient master, and who silently apologizes for being unable to die.

Leila hated the air of sickrooms. She couldn't bear even sitting beside her husband's couch, reading to him, or administering his medicine. She complained that her health was suffering by the confinement; so, after a time, it was Marjorie who looked after the patient, while Leila dashed about with Mrs. Boice-Nevins from one social affair to another.

"I can't afford to let people forget me, or to get too much out of things," she defended her heartlessness lightly.

A little enigmatic smile played around her thin lips. She looked so

## DR. ELIZABETH SMITH TO REST IN WEST VIEW

Funeral services for Dr. Elizabeth Wallace Smith, who died at Berkeley, Cal., in her seventy-second year, will be held at 3:30 o'clock this afternoon at the chapel of H. M. Patterson & Son. Interment private in West View cemetery. Rev. F. A. Doane will officiate.

She is survived by two sisters, Miss Florence N. Smith and Mrs. F. A. Doane, of Berkeley, and four grandsons, Dewitt, Wallace, Norman and Burton Smith, all of Atlanta.

## Dr. Ridley Roasts Flowers-Anderson Auditorium Fight

During the course of his sermon Sunday night at the Third Baptist church, Dr. Caleb A. Ridley paid his respects to the Flowers-Anderson fight, which was held at the city auditorium last Thursday night. The two fighters are negroes.

The preacher expressed both surprise and regret that the auditorium could be used for such a purpose. "It is difficult," he said, "to find anybody who seems willing to bear the responsibility. Members of the boxing commission declare that they are powerless. They say their only duty is to see the fight and see that they are carried on according to the latest rules laid down for that particular form of barbarism."

"Others tell us that the Flowers-Anderson disgrace was carried on according to law. Perhaps so, but it was a disgrace to the city of Atlanta and a reflection upon every good woman in the city."

"Such a disgrace would have been bad enough if pulled off on Decatur street, but for this city to so far forget itself as to join hands with such a bunch and open the doors of its auditorium with official sanction is unthinkable."

## CONTEST PRIZE WINNERS TO GET AWARDS TODAY

Prize winners in The Constitution's boys and girls' painting and drawing contest, announced Sunday in the boys and girls' department of the Sunday Magazine section of The Constitution, are requested to call at The Constitution office Monday morning to receive the awards.

In addition to cash prizes given by The Constitution, 50 tickets to Loew's Grand were given by that theater.

## U. D. C. Board Meets Tuesday

There will be a called meeting of the board of the Atlanta chapter, U. D. C., Tuesday, July 8, at 2:30 o'clock, city hall. Mrs. Stafford Seidell, chairman of the board.

# Announcing A Summer Clearance DRESSES AND SUITS

## Woods Elevator Company

### Rendering Great Service

In the present day and time when we place such high value on an hour's or a day's time we probably appreciate service more than those who lived in the generations gone by. When through unseen causes we are held up by the sudden stop of the electric car, the breakdown of the automobile, the holdup of the traffic jam, the train that is delayed or the elevator that is not running, we then quickly give credit to the service of the expert in that particular line that can get the wheels in motion and let us go hurrying on our way. Atlanta has now grown to that size that it has the trouble and service man in all lines of endeavor who can be reached quickly, and if it is elevator trouble, a call at any time during business hours of Main 3735 or nights or Sunday of Main 4915-J will get W. F. Woods, of the Woods Elevator Service Company, of 119 South Forsyth street. Mr. Woods has had fifteen years' experience in the elevator repair business and has a splendid crew of skilled mechanics with him, a complete line of all parts for all makes of elevators, so that he, or his men, is available day or night and has the necessary parts to quickly make any repairs that may be required. At the present time this firm is examining the elevators in most of Atlanta's large buildings several times a month, and this service consists of a careful inspection and includes oiling and cleaning of machine, motor and controller, greasing or oiling bearings and guides. By making the inspections every few days they are able to detect any worn or bad parts and very often by making some minor adjustments to brakes, automatics or controllers they prevent what might be a very serious trouble and thus cause the elevator to be hung up several days. With their splendid equipment and the workmen they are able to take care of any mechanical or electric elevator repairs and while they have their "ups and downs" they render great service to the busy public.

## The Gate City Mattress Co.

### Is Doing Good Renovating

The Gate City Mattress company, who are the oldest company in their line in Atlanta, having begun the making and renovating of mattresses a way back in 1890 and have a reputation for good work that extends all over the south, are now better able than ever to take care of the mattress work of their old and new customers, having recently added some new equipment and machines of special designs that will greatly facilitate their work. When it comes to renovating an old mattress or making a new one out of it there are few if any that can exceed the Gate City in this branch of the business, as this firm has been specializing in the making of new mattresses out of old ones for the past 11 years. To any one not familiar with this line of work it is surprising what these people can do with an old mattress that looks only fit to be thrown away or discarded by working over the old cotton or other filler with a machine called a "picker." They make it soft and "fluffy" again and after it is cleaned and the dust all blown out of it and a new cover put on your old mattress is now like new and at a very small cost to you. This firm has a large plant at 404 Decatur street and the men and women employed there are all people of long experience in this line and they know how to make a very comfortable mattress out of your old one in very quick time; in fact, they have their work down so fast that if you call them at IVy 6478 before 8 o'clock in the morning they can have the mattress you slept on one night back again as a new one the next night. P. C. Hornbuckle, the president, stated Saturday his company is carrying a great line of up-to-date tickings and they have a large line of very attractive mattresses on hand and if you will give them a ring they will send an expert to your house who will give you an estimate on what new special work or renovating you may want done.

## George Dowman Maintains Efficient Organization

One of the most complete and efficient estimating and engineering organizations in the south is maintained in Atlanta by George Dowman, who has been in the business for the past 35 years and during this period has executed many of the largest and most important contracts in this section. Mr. Dowman, personally, is known throughout the south as a sheet metal contractor, having handled many contracts for sheet metal work and various types of roofs, factories, etc., as many large contracts for fireproof windows and doors of every type. He is at all times working out for his clients and customers a line of installations for all types of fireproof building supplies, such as hollow metal and laminated elevator enclosures, hollow metal elevators, solid steel shafts for schools, factories, etc., remodeling of old elevator enclosures, metal ceilings for stores, churches, etc. At the present time many large contracts are under way for complete erections of elevator enclosures. In addition to the above items his engineering department is executing many ventilating problems, by the use of the "Fosco" Rotary Suction Ventilator, which keeps the hottest room cool and comfortable at all times. The estimating and engineering department is in charge of Mr. Wade H. Hobbs, who has been associated with the sheet metal business for about ten years and is a thoroughly competent engineer. Mr. Dowman is justly proud of his competent and highly skilled erecting forces, many of them having been with him throughout his entire business career, and can always be depended on for a thorough and workmanlike job. Mr. Dowman's lines also include many special items such as all-steel galvanized fences, for factories, residences, etc., cool chutes, all-steel garages, skylights, ventilators, metal lath and other plastering commodities; metal Spanish tile, etc., and in the sale of these items Mr. Dowman is assisted by his son, George Dowman, Jr., who recently graduated from Georgia Tech. Mr. Dowman's spacious quarters are in the Walton building, rooms Nos. 610-611, and his many friends are welcome at all times where complete service is always available.

## Wynne Claughton Building Will Add Much to Atlanta

As the years go by we see more experts coming to the front in all lines of commercial endeavor, even though it be in the building trade, which dates back to the cave men, there are new men who, through making a special study of some particular branch of the building line, stand out as experts in that particular phase of the work in which they are engaged. Here in Atlanta we have in Richard A. Belsham, of 223 Palmer building, an architectural and industrial engineer, who is rated high among the builders as an expert in concrete and steel construction for large buildings. While Mr. Belsham has plans under way for several small buildings through the southeastern states, he and his staff are very busy putting the finishing touch on the structural plans of the new 12-story office building that will soon rise at the corner of Calhoun and Ellis street for the Wynne Claughton Realty company. This building, Mr. Belsham states, will be a beauty and a source of much pride to the people of Atlanta when completed, having many special features and innovations that will add much to the convenience of the tenants and the public. The excavation for this big building is getting along fine with the steam shovel very rapidly removing the dirt and with the tool and material houses all built the work on the foundation will begin in a few days and the building rushed right along with all speed consistent with good work.

## STIFF MONEY RATES RULED BOND MARKET

New York, July 6.—(By the Associated Press).—Temporary stiffening of money rates and intermittent profit-taking held bond prices last week slightly below the year's record high levels previously attained. Relaxing activity was accompanied by waning interest in railroad securities, but a number of foreign, industrial and public utility lines developed strength. Participation of New York bankers in the flotation of an international reconstruction loan for Hungary constituted an important step in foreign financing developments. While the American portion, \$7,500,000, was relatively small in contrast to the \$50,000,000 total, the offering coupled with the United States government's subordination of war claims to the loan, demonstrated the willingness of this country to aid European rehabilitation. Temporary suspension of the Mexican debt agreement, negotiated with the international committee of bankers on Mexico, was announced last week by President Obregon, following the government's failure to meet the semi-annual interest payment of more than \$8,000,000, which fell due July 1. Bankers, explaining that the revolution last winter had crippled Mexico financially, adopted a lenient attitude and decided not to declare a default at this time. Resumption of interest payments, Mexican officials promised, would be made upon restoration of the treasury's equilibrium of the granting of another loan. With the week broken by a holiday, the total of new bond offerings fell below the \$100,000,000 average which had been maintained for more than a month. The demand for new issues, however, continued unabated, with numerous over-subscriptions reported. The recent heavy volume of new financing, according to a preliminary compilation, carried the total of new corporations, foreign government, farm loan and municipal bond issues for the first half of 1924 to approximately \$2,500,000,000, considerably in excess of the aggregate for the corresponding period of 1923. Prospects that a portion of Canada's \$200,000,000 financing would be offered in New York in view of prevailing money conditions brought encouragement to investment bankers.

## New Firm With New Equipment Doing Good Work

As Atlanta grows more different kinds of business, shops and factories are attracted here and each new line of endeavor makes it that much more desirable to live in Atlanta as it is more convenient to get a larger number of articles or have them repaired here through the addition of these new enterprises.

If a metal article from a nut cracker to a white paint is broken it is not necessary to throw it away or send it to some city a long distance away to have it repaired, as the Electric Welding company, of 52 Hudson street, is prepared to weld or braze all kinds of articles made of metal.

This firm has new equipment and an expert welder in G. E. Parker, and according to H. D. Masters, the proprietor, there is no broken metal article that Parker cannot put together again no matter how small or large it may be.

This firm repairs all the city white way posts that are broken every month, and if you have any broken part of your automobile that you think cannot be fixed see them before you throw it away or buy a new one.

They make fire escapes and window guards of every description and are prepared to do all work of this kind on short notice. This firm is a splendid acquisition to Atlanta and will save their customers much time and money in the course of a year.

## Prominent Atlanta Men Head Trust Co. Just Formed Here

The Oglethorpe Trust corporation, with offices at 313 and 314 Palmer building, announce that they have taken over the Real Estate Loan company, and added a trust department, and from now on a great increase of business is looked for.

The officers of the merged corporation are all well-known Atlanta business men and are A. G. Smith, president; J. H. Porter, vice president; George W. Myers, treasurer, and Perry Secord, secretary.

Mr. Myers announces that they have on hand large sums for immediate investment as loans on Atlanta real estate, ranging from \$1,000 to \$2,000, denominated, bearing 7 and 8 percent, that are splendid investments for those having some idle money.

All the officials connected with the Oglethorpe Trust corporation are great believers in Atlanta real estate and see a great future for this old town.

## TILDEN WINS WESTERN TITLE

Indianapolis, Ind., July 6.—(By the Associated Press.)—William T. Tilden, of Philadelphia, national tennis champion, added another title to his ever-growing list today when he defeated John Hennessey, Indianapolis, in the finals of the western title championships. The scores were 6-2, 6-1, 6-2.

Hennessey, who proved the sensation of the tournament by eliminating B. L. C. Norton, formerly of South Africa, on successive days, was completely submerged by Tilden's superb game today. Both players elected to play from the back lines, with the champion's perfect placements to all corners of the court giving him a decided advantage.

Patterson and Schlesinger, of the Australian Davis cup team, won the doubles title by defeating Hennessey and Chapin in a hard-fought match. The scores were 7-5, 8-6, 6-4.

The Australians got away to a slow start but won five straight games to take the first set and maintained their advantage from this time on. The smashing over-head play of Patterson featured.

Miss Marion Leighton, of Chicago, won the women's singles championships by defeating Mrs. Leo Alter, also of Chicago, 6-2, 6-4.

The women's doubles title was won by Mrs. Alter and Miss Leighton, who defeated Mrs. Ruth Riese, of Saginaw, Mich., and Mrs. A. J. Stewart, Chicago, 6-0, 6-1.

Leo Kurzrock, of Indianapolis, won the junior title by defeating Thomas McGlynn, Philadelphia, 6-3, 6-2, 6-4.

Walter Thomas, of East Orange, N. J., won the boys' title, defeating Philip Pike, Bloomington, Ind., 6-2, 6-4, 6-2.

The majority of the stars competing here left tonight for St. Louis, where they will take part in the national clay court championships.

Other players who won matches today were Myron B. Hutchinson, St. Paul; Levan Jester, Dallas; F. C. Elwell, Detroit; T. E. Hachney, Fort Worth; Karl Kammann, St. Louis, district champion; Joseph Armstrong, Missouri; valley title holder.

William T. Tilden II, present title holder of the national clay court, will get into action Monday afternoon. He will meet Joseph Smith, the St. Louis junior, who was ranked No. 10 in the national list for 1923, in a first-round encounter and is expected to play another round later in the day.

## Griffin Wins Tennis Matches

St. Louis, July 6.—(By the Associated Press.)—Clarence J. Griffin, of San Francisco, reached the round of the national clay court tennis championship at the Triple A club today by defeating Edward Serrano, St. Louis, in straight sets, 6-2, 6-4.

The former clay court title holder had an easy time taking the first set from Serrano. The latter improved as the match progressed and brought the score to four all in the second set. Griffin took the next two games by excellent placement drives.

## Giants, Senators Lead Leagues

New York, July 6.—The week's major league total of games won and lost, runs, hits, errors, opponents' runs and home runs, including Saturday's games, follows:

## THE GUMPS—A VOICE FROM THE TOMB

## The Fun Shop

MAXSON FURNACE JOURNAL

## SEMIN' THINGS.

By L. A. Lawrence.

Have you heard of What-you-may-call-it Land?

Where the Whoops gaily sing,

And the moxie sits in the golden sand

And plays with his diamond rings?

Where the moon comes up from the

corse sea?

And wanders about the sky,

And baritone frogs, from their saline

bogs,

Croon their plaintive lullaby?

Strange things I've seen, in this land

of green,

Where the roaring oysters grow,

On maple twigs with purple wigs

And amber eyes that glow;

From deep ravine, the wild sardine

Laughs loud in flendish glee

At hairy monks, with scarlet trunks,

Who swing from tree to tree.

From a lake of wine the fierce clams

dine,

To the strains of a rubber band,

And then they dance, in a drunken

trance,

On a bench of beaten sand—

I cannot tell all that befell,

Else you would think I lie;

You'll see these tricks if you will

mix.

Home brew and old mince pie.

—L. A. Lawrence.

Of Course.

"The woman always says," quoted

the professor, meaningly.

"Yes," chuckled the cynic, "but

usually with her husband's money."

—Edward H. Dreier.

CARTOON.

Many a man spends his evening at

the club because his wife is waiting

home for him with one.

—Harry J. Williams.

Stung.

Though I think that its functions are

far from correct,

And I sometimes am tempted to

scorn it,

Yet I cannot but feel quite a whole-

some respect

For the business end of a hornet.

—Harry J. Williams.

Two Extremes.

Lawyer (in dentist's chair): "My

advice to clients is: 'Keep your

mouth shut!'"

Dentist: "That's good advice.

Now, keep your mouth open."

—Harry Fishbein.

Hints for Motorists.

Look out for yourself and make

the other fellow look out for you.

Do not hit and run down a cripple.

Make a new one.

Cheer up the invalids and shut-ins

by using your cut out when passing

a hospital.

Be very careful to strike pedes-

trians in such a way that there will

be no danger of breaking your head-

lights. Use a little judgment when

you are tempted to bump a large and

heavy pedestrian. He may dent up

your fenders.

If there is a pool of water in the

street and a man in a light suit near

by, don't fail to let him know that

you own a car.

Never pass street cars when they

are standing still. Wait until they

gettin' on your nerves, an' that you're

beginnin' to see things."

"I thought of that," Bill answered

gravely. "An' so, when I saw it run

off across the snow, I looked in the

snow an' saw tracks. Then I counted

the dogs an' there was still six of

em. The tracks is there in the snow

now. D'ya want to look at 'em? I'll

show 'em to you."

Henry did not reply, but munched

on in silence, until the meal finished.

He wiped his mouth with the

back of his hand and said:

"Then you're thinkin' as it was—"

A long wailing cry, fiercely sad,

from somewhere in the darkness, had

interrupted him. He stopped to lis-

ten to it, then he finished his sen-

tence with a wave of his hand toward

the sound of the cry, "one of

them."

Bill nodded. "I'd a blame sight

sooner think that than anything else.

You noticed yourself the row the dogs

made?"

Cry after cry, and answering cries,

were turning the silence into a bed-

lam. From every side the cries arose,

and the dogs betrayed their fear by

huddling together and so close to the

fire that their hair was scorched by

the heat. Bill threw on more wood,

before lighting his pipe.

"I'm thinkin' you're down in the

mouth now," Henry said.

Henry... He sucked medita-

tively at his pipe for some time be-

fore he went on. "Henry, I was

gettin' on your nerves, an' that you're

beginnin' to see things."

"I thought of that," Bill answered

gravely. "An' so, when I saw it run

off across the snow, I looked in the

snow an' saw tracks. Then I counted

the dogs an' there was still six of

fore he went on. "Henry, I was

gettin' on your nerves, an' that you're

beginnin' to see things."

"I thought of that," Bill answered

gravely. "An' so, when I saw it run

off across the snow, I looked in the

snow an' saw tracks. Then I counted

the dogs an' there was still six of

em. The tracks is there in the snow

now. D'ya want to look at 'em? I'll

show 'em to you."

Henry did not reply, but munched

on in silence, until the meal finished.

He wiped his mouth with the

back of his hand and said:

"Then you're thinkin' as it was—"

A long wailing cry, fiercely sad,

from somewhere in the darkness, had

interrupted him. He stopped to lis-

ten to it, then he finished his sen-

tence with a wave of his hand toward

the sound of the cry, "one of

them."

Bill nodded. "I'd a blame sight

sooner think that than anything else.

You noticed yourself the row the dogs

made?"

Cry after cry, and answering cries,

were turning the silence into a bed-

lam. From every side the cries arose,

and the dogs betrayed their fear by

huddling together and so close to the

fire that their hair was scorched by

the heat. Bill threw on more wood,

before lighting his pipe.

"I'm thinkin' you're down in the

mouth now," Henry said.

Henry... He sucked medita-

tively at his pipe for some time be-

fore he went on. "Henry, I was

gettin' on your nerves, an' that you're

beginnin' to see things."

"I thought of that," Bill answered

gravely. "An' so, when I saw it run

off across the snow, I looked in the
